Student Dining Committee Meeting

03/28/2013

3 students were in attendance at this meeting

White College likes the dinners that have been in T-Room this week, and last month. Some of the White students are asking about to-go boxes, but Paula(Dining Director) said those will not be made available since the purpose of the dinners is to bring together the White and Regents students for a communal dinner. Allowing food to go defeats the purpose.

Paula asked the White rep how Dining could do better at getting the word out to White residents about the Rhino Rest Stop over in Regents. She suggested using the bulletin board at the entrance to White; the White College Facebook page; and speaking to the RD or Corky about putting something up on the RacerVision screen.

There was some discussion about the best hours of operation for the coming food truck on Friday and Saturday night. The consensus was that 9pm-midnight would be ideal.

It was pointed out that the nutrition chart on the bulletin board at Winslow was out of date. Tim(Chef) said he would check on it, but that the one on line was correct.

Paula asked for some suggestions on "monotony breakers" that students might like. One idea was to do giveaways like at Midnight Breakfast, even if it was only once/month—those are extremely popular with students. And the idea of doing a Karyoke met with great enthusiasm. Both of these types of events would have to be done on a Friday or Saturday, when things are slower, especially the karyoke, since students will hang around and there won't be enough turnover of seats.

Next meeting will be April 11th.
