Certificate

| Professional Telecommunications Systems Management |
The departments in the Jesse D. Jones College of Science, Engineering and Technology have a proud history of preparing students for careers in biology, chemistry, engineering, engineering technology, geosciences, industrial technology, mathematics, occupational safety and health, physics, statistics, sustainability science, and telecommunications.

The college’s faculty are talented educators who make quality instruction a priority. They make themselves accessible to students and enjoy helping them achieve their academic, professional, and career goals. Faculty continuously refine the curriculum which ensures that our degree programs are current and timely in addressing the needs and expectations of our students. The faculty are also recognized scholars who carry out interesting research projects with funding from a variety of national, state, and private agencies. Like some of the finest liberal arts colleges in the country, we use our research program to enhance the learning environment for our undergraduate and graduate students. Many Murray State students have the opportunity to work side-by-side with faculty trying to solve some of the most interesting questions facing the scientific community today. Our students, both undergraduate and graduate, have published the results of their research in national journals and presented their work at regional and national conferences. In addition, students at Murray State have the opportunity to gain valuable hands-on experience through our co-op and internship programs. These kinds of experiences give our graduates the edge they need when applying for graduate school, professional school, or when entering the job market.

Our students study in comfortable, modern facilities, which now includes the new Gene W. Ray science campus. The departments of biology and chemistry are housed in two beautiful state-of-the-art buildings, the Biology Building and Jesse D. Jones Hall. A proposed third building to house the engineering and physics programs will complete the campus. The college also enjoys excellent facilities in the Collins Center for Industry and Technology, Faculty Hall, and Blackburn Science Building.

Murray State’s designation as a Commonwealth Center of Excellence for Reservoir Research and the Program of Distinction in Telecommunications Systems Management adds to our distinctiveness both in the state and in the national and international academic communities.

Your academic experience in our college will be different from that found at many universities. The student-centered faculty, excellent facilities, and attractive curricular tracks offered here will provide you with an education that you will value throughout your life and career.

Programs and Facilities

Program of Distinction in Telecommunication Systems Management. The telecommunications field, which incorporates systems and networks of leading-edge technologies such as fiber optic systems, satellites, wireless, telephony and cable, is rapidly changing and growing. The changes taking place in this field are dramatically influencing how individuals and institutions communicate and how they conduct business. Technological advances in the telecommunications area have profoundly affected government, retail, finance, health care, education, industry and entertainment sectors. Murray State’s exciting program in telecommunications systems management is helping prepare our graduates to become the leaders in this important emerging field.

Watershed Studies Institute. Murray State University hosts one of the five designated Centers of Excellence in the Commonwealth of Kentucky. With funding support from agencies like the National Science Foundation, Department of Energy, Environmental Protection Agency, Tennessee Valley Authority and the Kentucky Department for Natural Resources, Murray State’s research program in ecosystem sciences is both nationally and internationally recognized.

Three distinct components make up the Institute: the Hancock Biological Station (HBS), the Mid-America Remote Sensing Center (MARC), and the Chemical Services Laboratory (CSL). The Institute’s primary mission is to provide the infrastructure, support, and intellect for education and research of watershed ecosystems.

The Watershed Studies Institute provides outstanding research opportunities for scientists from around the world to study the region’s unique environment. The Institute also provides Murray State University undergraduate and graduate students with an opportunity to engage in hands-on research with faculty who are at the vanguard of ecosystem science.

Mid-America Remote Sensing Center. Since the late 1970s when Murray State was declared the Commonwealth’s technology transfer agent for NASA’s Landsat satellite, MARC has distinguished itself in the area of remote sensing and Geographic Information Systems (GIS). Students from around the world have received classroom instruction and have been mentored in research by the MARC Associates, a group of faculty and staff with expertise in a wide variety of application areas, many of which are focused on natural and cultural resource areas including land cover mapping, archaeological site analysis, mineral exploration, water quality and wildlife habitat mapping, emergency preparedness, and demographic modeling. Research projects have been conducted for local, state, and federal agencies, the private sector, and the university. MARC provides training in remote sensing and GIS and acts as a resource center for those within and beyond the university. MARC is one component of the Watershed Studies Institute and, as such, maintains a GIS for the lower reaches of the Kentucky Lake drainage basin.

Hancock Biological Station. A year-round research and teaching facility located on beautiful Kentucky Lake, the HBS is one of the finest centers of its kind in the Midwest. HBS acts as the field research focal point for the Watershed Studies Institute and for the Ecological Consortium of Mid-America. The facilities, which include both faculty and student housing, are available year-round to all scientists interested in ecosystem research. Hancock Biological Station contains state-of-the-art laboratories for aquatic chemistry, scanning electron microscopy, ecology, wildlife and fisheries. A full-time technical staff operates the facilities. Field-oriented classes at the station attract students from around the nation. A wide variety of formal classes are offered each summer. These may include ecology, ornithology, limnology, field botany, stream ecology, reservoir ecology, scanning electron microscopy and vertebrate ecology. Independent research topics provide opportunities for individualized instruction and close interactions with researchers. Classes are open to undergraduates, graduate students, teachers and others interested in enhancing their knowledge of ecology, ecosystems and the natural environment.

Chemical Services Laboratory. The Chemical Services Laboratory provides reasonably priced analyses and instruction in environmental analytical chemistry at both the undergraduate and graduate levels. The Chemical Services Laboratory is a major contributor to the Institute’s research through its provision of chemical analyses for environmental chemistry, ecotoxicological, trace element and acid deposition studies. In addition, it offers regional laboratory service for industries, institutions and individuals in west Kentucky, the greater Ohio Valley region and beyond in fulfillment of its regional economic service role.

Note: L=literature; R=research; PT=professional training. See page 70.
Sustainability Studies Minor

The Sustainability Studies minor is an interdisciplinary exploration of sustainability issues focusing on the environment and/or sustainable development. Integrating knowledge and experiences from the sciences, engineering, agriculture, business, humanities, and arts, the minor is designed to complement any major area of study by focusing on ecological health, sustainable agriculture, and economic sustainability.

MINOR:
Sustainability Studies

Total Minor Requirements ........................................ 22-24 hrs

Required Courses ................................................................. 10 hrs
BIO 103 Saving Planet Earth
ENG 371 Literature and the Environment
IDC 150 Issues in Sustainability Studies
PHI 376 Environmental Ethics

Restricted Electives .................................................................. 6 hrs
Choose two of the following:
AGR 353 World Food, Agriculture and Society
CET 284 Sustainable Design and Construction
REC 450 Recreational Use of Natural Resources

Unrestricted Electives .............................................................. 6-8 hrs
Chosen from the following with program coordinator approval:
AGR 345, 378, 455; ANT 320; ARC 314; BIO 112, 330, 506, 578; CHE 502, 513; ECO 345, 410; ENT 286; GSC 507, 524; PSY 373; SOC 325, 380, 455.

Note: Six hours of the minor must be upper-level courses completed in residence at Murray State University.

Sustainability Science
Graduate Coordinator - Howard Whiteman
(270) 809-6753

The Sustainability Science program is an interdisciplinary master’s program within the Jones College of Science, Engineering, and Technology designed to prepare students for careers in sustainability or closely related fields that have sustainability needs. The course of study allows specialization in one of four tracks: Agricultural Sustainability, Environmental Sustainability, Industrial and Technical Sustainability, and Sustainability Education. All students must complete a core curriculum, two restricted electives, and advanced courses in their area of interest.

Requirements for Admission
Applicants must meet all Murray State University requirements (see Graduate Admissions). Additional requirements for unconditional and conditional admission are listed below.

Unconditional
• Baccalaureate degree in science-related field.
• At least a 3.0 undergraduate GPA.
• Composite GRE score of at least 297 (148 verbal + 149 quantitative).
• International students: TOEFL score of at least 527; iBT TOEFL of 71; or IELTS score of 6.0.

Conditional
Recommendation of the advisory committee; international students must meet minimum testing scores described above.

Master of Science in Sustainability Science

CIP 30.3301

Total Course Requirements ............................................. 30-32 hours
Core Requirements .............................................................. 17 hrs
CET 687 Sustainable Environmental Technology
GSC 601 Understanding Sci. Communication
GSC 607 Land Use Planning
WSC 601 Seminar in Sustainability Science
WSC 693 Sustainability Practicum I
WSC 694 Sustainability Practicum II
Restricted Electives............................................................................. 6-7 hrs
Choose two of the following:
- AGR 643 Sustainable Agriculture
- ARC 615 Environmental Archaeology
- BIO 665 Biogeochemistry
- MAT 665 Applied Statistics I

Unrestricted Electives............................................................................. 6-9 hrs
Choose elective hours from one of the following emphasis areas:

**Agricultural Sustainability**
- AGR 636 Seminar in International Agriculture Systems
- AGR 649 Weeds and Their Control
- AGR 652 Agricultural Policy
- AGR 655 Advanced Soil Fertility
- AGR 661 Sustainable Agriculture
- AGR 671 Advanced Precision Agriculture
- AGR 674 Agricultural Irrigation and Water Systems
- CHE 604 Fundamentals of Toxicology
- CHE 613 Environmental Chemistry
- GSC 612 Remote Sensing
- GSC 621 Geographic Information Systems

**Environmental Sustainability**
- AGR 662 Principles of Agroecology
- ARC 610 Landscape Archaeology
- ARC 615 Environmental Archaeology
- BIO 635 Biogeography
- BIO 642 Watershed Ecology
- BIO 665 Biogeochemistry
- BIO 675 Invasion Ecology
- BIO 678 Conservation Biology
- BIO 685 Restoration Ecology
- BIO 690 Disturbance Ecology
- CHE 604 Fundamentals of Toxicology
- CHE 613 Environmental Chemistry
- GSC 612 Remote Sensing
- GSC 621 Geographic Information Systems

**Industrial and Technical Sustainability**
- CET 655 Environmental Regulatory Affairs
- CET 681 Pollution Assessment and Control
- CET 682 Industrial Ecology
- CET 686 Environmental Assessment and Remediation
- CET 687 Sustainable Environmental Technology
- CET 688 Waste Minimization and Pollution Prevention
- CHE 600 Chemistry of Fuels
- CHE 604 Fundamentals of Toxicology
- CHE 613 Environmental Chemistry
- IET 619 Industrial Energy Management
- OSH 622 Toxicology of Industrial Materials
- OSH 646 Fundamentals of Risk Control
- OSH 687 Wastewater Treatment
- OSH 689 Solid and Hazardous Waste Treatment

**Sustainability Education**
- EDU 615 Introduction to Environmental Education
- EDU 664 Techniques of Teaching Environmental Education
- EDU 665 Field Experiences in Environmental Education
- EDU 667 International Environmental Education
- EDU 668 Agriculture and the Environment in the Classroom
Interdisciplinary Program in Watershed Science
Watershed Studies Institute
(270) 474-2272

The Watershed Studies Institute program in Watershed Science is an interdisciplinary master’s program within the Jones College of Science, Engineering and Technology designed to prepare students for careers or for further graduate studies in the broader aspects of watershed management and science. The thesis course of study allows students to concentrate on one of four tracks: aquatic ecology, environmental chemistry, hydrological spatial analysis, or watershed conservation. The non-thesis course of study is designed to fit individual educational goals and may be focused on any aspect of watershed science. All students must complete a core curriculum and advanced courses in their areas of interest.

Requirements for Admission
Applicants must meet all Murray State University requirements (see Graduate Admissions). A faculty member must agree to mentor the student. Additional requirements for unconditional and conditional admission are as follows:

Unconditional
- Baccalaureate degree in biology, chemistry, geosciences, mathematics, physics, or a closely related field.
- At least a 3.0 undergraduate GPA.
- Composite GRE score of at least 297.

Conditional
- Recommendation of the advisory committee.

Master of Science in Watershed Science
CIP 26.1304

THESIS REQUIREMENTS ONLY

Total Course Requirements .................................................. 36 hours
Core Requirements ............................................................. 18 hrs
BIO 642 Watershed Ecology (same as GSC 642)
BIO 696 Understanding Scientific Communication
CHE 613 Environmental Chemistry
GSC 665 Physical/Chemical Limnology
WSC 690 Seminar* PT
WSC 698-699 Thesis*, PT

Specialization ................................................................. 18 hrs
Courses must be approved by the advisory committee.

Aquatic Ecology
Choose two of the following:
BIO 646 Stream Ecology
BIO 686 Limnology
BIO 688 Reservoir Ecology
BIO 669 Biological Limnology
BIO 670 Limnological Analysis Laboratory
CHE 665 Biogeochemistry
GSC 662 Hydrogeology

and one of the following:
BIO 661 Freshwater Invertebrates
BIO 663 Aquatic Entomology
BIO 671 Ichthyology
BIO 672 Herpetology

and one of the following:
BIO 630 Animal Ecology
BIO 631 Plant Ecology
BIO 632 Quantitative Ecology
BIO 682 Waterfowl Management
BIO 683 Fisheries Management
Environmental Chemistry
CHE 617 Advanced Organic Chemistry
CHE 627 Chemical Separations
CHE 628 Mass Spectrometry
CHE 665 Biogeochemistry

Hydrological Spatial Analysis
Choose one of the following:
BIO 669 Biological Limnology
BIO 670 Limnological Analysis Laboratory
GSC 662 Hydrogeology

and three of the following:
CET 685 Remediation Technology
GSC 612 Remote Sensing
GSC 621 Geographic Information Systems
GSC 640 Advanced Remote Sensing
GSC 641 Digital Image Processing Research
GSC 680 Advanced Geographic Information Systems

Watershed Conservation
Choose two of the following:
BIO 646 Stream Ecology
BIO 669 Biological Limnology
BIO 670 Limnological Analysis Laboratory
BIO 686 Limnology
BIO 688 Reservoir Ecology
CHE 665 Biogeochemistry
GSC 662 Hydrogeology

and three of the following:
AGR 674 Agricultural Irrigation and Water Systems
BIO 678 Conservation Biology
BIO 682 Waterfowl Management
BIO 683 Fisheries Management
CET 655 Environmental Regulatory Affairs
CET 681 Pollution Assessment and Control
CET 685 Remediation Technology

Other Degree Requirements
• Successful completion of MAT 665 Applied Statistics I.
• Written and oral comprehensive examinations as specified by the advisory committee in broad aspects of watershed science and area of concentration (usually taken in third semester of residence).
• Defense of thesis.

NON-THESIS REQUIREMENTS
Total Course Requirements ............................................ 36 hours
Same as above with the following substitution for thesis:
BIO 669 Biological Limnology
CHE 665 Biogeochemistry
Specialization electives (decrease to 15 hrs)¹
Must include:
GSC 662 Hydrogeology

Other Degree Requirements
• Successful completion of MAT 665 Applied Statistics I.
• Written comprehensive examination in broad aspects of watershed science (usually taken in third semester of residence).
• Literature review on some aspect of watershed science, developed in collaboration with the faculty advisor. Successful written and oral presentation of the review counts as WSC 690.
¹As approved by advisor.
The Department of Biological Sciences offers baccalaureate programs with a major in biology (pre-medicine, pre-dentistry, pre-optometry, pre-physical therapy, pre-physician assistant, molecular biology, fisheries, aquatic biology and secondary certification tracks available) or an area of concentration in wildlife and conservation biology. These programs are designed to prepare students for professional or graduate work in the life sciences, such as the M.S. in biology offered by the department. Curricula provide students with a basic core of science courses plus advanced biology courses in their particular field of interest. The department also offers a two-year, pre-professional program in pharmacy and a minor in biology.

The department has offices, classrooms, laboratories, and research facilities in the newly constructed Biology Building and on the third floor of the Blackburn Science Building. The department also has two off-campus resources which are utilized in field-oriented teaching and research programs. One of these, Murphy’s Pond, is a 300-acre preserve in Hickman County with one of the few remaining cypress swamps in western Kentucky. The other, Hancock Biological Station, is a modern classroom/laboratory complex located on the western shore of Kentucky Lake, 17 miles from the main campus. The station is ideally located in an area of diverse aquatic habitats and is the focal point for the reservoir research on Kentucky Lake and Lake Barkley.

**MAJOR:**
**Biology**

Bachelor of Science/Bachelor of Arts Degree
CIP 26.0101

University Studies Requirements\(^1\) ................................. 41-51 hrs
(See Academic Degrees and Programs.)

University Studies selections must include:
- **Scientific Inquiry, Methodologies, and Quantitative Skills**
  - CHE 201 General College Chemistry
  - CHE 202 General Chemistry and Qualitative Analysis
  - MAT 150 Algebra and Trigonometry
    - or
    - MAT 250 Calculus and Analytic Geometry I
- **University Studies Electives**
  - PHY 130 General Physics I
  - PHY 131 General Physics I Laboratory
    - or
    - PHY 235 Mechanics, Heat and Wave Motion
    - PHY 236 Mechanics, Heat and Wave Motion Laboratory

Required Courses ............................................................... 41 hrs

- BIO 100T Transitions
- BIO 115 The Cellular Basis of Life
- BIO 216 Biological Inquiry and Analysis
- BIO 221 Zoology: Animal Form and Function
- BIO 222 Botany: Plant Form and Function
- BIO 330 Principles of Ecology
- BIO 333 Genetics
- BIO 499 Senior Biology Seminar
- BIO electives, 300-level or above (16 hrs)
  - [BIO 488 and 489 will not count here\(^2\)]

Co-Requirements for Biology Major........................................... 7-8 hrs

Group 1:
- CHE 312 Organic Chemistry I
- CHE 320 Organic Chemistry II

or Group 2:
- CHE 210 Brief Organic Chemistry\(^4\)
- CHE 215 Chemistry Laboratory\(^4\)
- CHE 330 Basic Biochemistry
Required Minor\(^4\) ................................................................. 3-21 hrs

Unrestricted Electives .................................................. 17-28 hrs

Total Curriculum Requirements ..................................... 120 hrs
\(^1\)Curriculum satisfies 9-10 hours of science University Studies requirements and ten hours of University Studies electives.
\(^2\)A maximum of three hours total from BIO 483, 484 and BIO 491, 492, 493, 494 may be used.
\(^3\)This course does not apply toward the chemistry minor.
\(^4\)Chemistry co-requirements may apply toward the requirements for a minor in chemistry.

and
AGR 300 Principles of Animal Nutrition
AGR 322 Veterinary Laboratory Principles
AGR 329 Veterinary Hematology and Microbiology
AGR 331 Small Animal Diseases
AGR 332 Animal Nursing and Radiography

Unrestricted Electives ........................................................................ 0-2 hrs

Total Curriculum Requirements .................................................. 120 hrs
\(^1\)Certification available from The Wildlife Society.
\(^2\)Will count as University Studies Social Science elective.
Pre-Pharmacy Curriculum

Required Courses .................................................. 58 hrs
BIO 221 Zoology: Animal Form and Function
BIO 227 Human Anatomy
BIO 228 Human Anatomy Laboratory
BIO 300 Introductory Microbiology
CHE 201 General College Chemistry
CHE 202 General Chemistry and Qualitative Analysis
CHE 312 Organic Chemistry I
CHE 320 Organic Chemistry II
CHE 325 Organic Chemistry II Laboratory
ECO 231 Principles of Microeconomics
ENG 105 Reading, Writing and Inquiry
ENG 204 Advanced Expository Writing
MAT 135 Introduction to Probability and Statistics
MAT 250 Calculus and Analytic Geometry I
PHY 130 General Physics I
PHY 131 General Physics I Laboratory
PHY 132 General Physics II
PHY 133 General Physics II Laboratory
Elective hours:
Cross-cultural\(^2\) (3) General electives (4) Humanities\(^1\) (6)
Social and Self-Awareness and Responsible Citizenship (3)

Total Curriculum Requirements .................................. 74 hrs

\(^1\)The above program is based on the current admission requirements of the College of Pharmacy, University of Kentucky. Other colleges of pharmacy will have somewhat different requirements from those listed above. The curriculum can be modified to meet the requirements of most professional programs. Pre-pharmacy students desiring a four year program to receive the B.S. degree should follow the pre-medicine track and include all the courses listed above. The pre-pharmacy advisor should be consulted.

\(^2\)A course focusing on the study of a Third World or non-Western country.

\(^3\)Must be a two-course series.

Biology Minor ................................. 21 hrs
Complete BIO 115, 216, and either 221 or 222 (or both). A maximum of three hours total from BIO 483, 484, 491, 492, 493, or 494 may be used. Remaining BIO hours should be chosen with advisor’s approval (BIO 330 and 333 are highly recommended). BIO 101, 488, 489, and 499 will not count toward this minor. Six hours must be upper-level (300 and greater) courses completed in residence at Murray State University.

Graduate Program

Graduate Coordinator - Michael Flinn

The Department of Biological Sciences offers the Master of Science degree. The M.S. program is designed to prepare the student to assume an active career in teaching and/or research or to pursue further graduate studies.

Requirements for Admission

Applicants must meet the Murray State University requirements (see Graduate Admissions). A faculty member must agree to mentor the student. Additional requirements for unconditional and conditional admission are as follows.

Unconditional

- Undergraduate courses in botany, zoology, ecology, and genetics.
- Eight undergraduate hours in chemistry.
- Composite GRE score of 300 (V+Q) or higher on current scale or 1,000 (V+Q) or higher on prior scale.

Conditional

Recommendation of the advisory committee.
Master of Science in Biology

CIP 26.0101

Within the guidelines, the individual’s program is developed by an advisory committee to ensure proficiency in the basic areas of zoology, botany, ecology and genetics. The thesis track is strongly recommended for anyone considering further research or graduate activities.

THESIS REQUIREMENTS

Total Course Requirements ............................................. 30 hours
BIO 689 Introduction to Graduate Study
BIO courses, two from the following:
BIO 620, 623, 630, 631, 632, 635, 645, 650, 651, 655, 667, 669, 670, or 682. (6-8 hrs)
Additional 600-level BIO courses (including above if not one of two already selected). (3-14 hrs)
Graduate courses in related fields (0-9 hrs)
BIO 696 Understanding Scientific Communication¹
BIO 697 Seminar
BIO 698-699 Thesis"  

Other Degree Requirements

• Proficiency in quantitative methods through MAT 665 or a graduate course in bioinformatics, such as BIO 657.
• A preliminary examination will be given in the student’s first semester to assess the student’s understanding of principles across the diverse disciplines of biology.
• Oral defense of thesis.

NON-THESIS REQUIREMENTS

Total Course Requirements ............................................. 36 hours
BIO 689 Introduction to Graduate Study
BIO courses, two from the following:
BIO 620, 623, 630, 631, 632, 635, 645, 650, 651, 655, 667, 669, 670, or 682. (6-8 hrs)
Additional 600-level BIO courses (including above if not one of two already selected). (8-22 hrs)
Graduate courses in related fields (0-12 hrs)
BIO 696 Understanding Scientific Communication¹
BIO 697 Seminar

Other Degree Requirements

• Proficiency in quantitative methods through MAT 665 or a graduate course in bioinformatics, such as BIO 657.
• A preliminary examination will be given in the student’s first semester to assess the student’s understanding of principles across the diverse disciplines of biology.
• BIO 695 Biological Research (4) with prior approval of the research topic by the student’s graduate committee; results to be presented while enrolled in BIO 697.

Graduate courses must include a minimum of one 600-level course from each of the following fields: botany, zoology, ecology, and genetics. Specific courses that fulfill the requirements for these fields will be defined by the faculty.

Master of Arts in Education Secondary Teacher Leader with Biology Concentration

CIP 13.1205

The Department of Biological Sciences provides instruction in support of the M.A.Ed. in Secondary Teacher Leader with a concentration in biology. Prospective students should contact the graduate coordinator in the College of Education and Human Services for details on advising and graduate program design.
Department of Chemistry
1201 Jesse D. Jones Hall
270-809-2584

The Department of Chemistry is certified by the American Chemical Society’s Committee on Professional Training. The department offers an area in chemistry or a major with tracks in biochemistry, forensics, polymer and materials science, pre-medical, pre-dental, pre-pharmacy, pre-MBA, or teacher certification.

The chemistry area program is designed for students planning careers in engineering, the chemical industry, or for those who plan to pursue graduate study following the baccalaureate degree. Upon completion of this program, graduates are certified as professional chemists. Alumni with the area are well prepared to succeed in nationally recognized Ph.D. programs in chemistry.

The chemistry major program is recommended for students planning careers in medicine, dentistry, veterinary medicine, pharmacy, secondary education, toxicology, or biochemistry.

The department offers a minor in chemistry as well as a Master of Science in Chemistry.

Murray State has a nationally recognized chemistry student organizations, the Student Members of the American Chemical Society, the Forensic Science Student Association, and a national chemistry honor society-Gamma Sigma Epsilon.

The department is closely aligned with the Chemical Services Laboratory (CSL), the Watershed Studies Institute (WSI), and efforts to enhance environmental and biomedical sciences at Murray State University.

An excellent undergraduate research program is maintained that allows students to become involved in research projects during their first semester at MSU or later if they so desire. Students present posters or talks each semester at local and/or national meetings.

Students interested in chemistry, should contact the chair of the Department of Chemistry, Murray State University, 1201 Jesse D. Jones Hall, Murray, KY 42071-3300, Phone: (270) 809-2584 Fax: (270) 809-6474, or visit our website at www.murraystate.edu/chemistry.

\(^1\)Required for major if not taken as a University Studies elective.
\(^2\)CSC 232 or EGR 140 may be substituted.
\(^3\)At least one three-hour free elective must be chosen from outside Chemistry and may not be counted as a University Studies requirement.
MAJOR: Chemistry/Secondary Certification (Grades 8-12) Track

Bachelor of Science/Bachelor of Arts Degree
CIP 40.0501

NOTE: Requirements for teacher certification are established by the Kentucky Education Professional Standards Board. Students are cautioned that requirements may change. For current information, students should check with an advisor in the Department of Adolescent, Career and Special Education.

University Studies Requirements ........................................... 41-50 hrs
(See Academic Degrees and Programs.)

University Studies selections must include:

• Scientific Inquiry, Methodologies, and Quantitative Skills
  MAT 250 Calculus and Analytic Geometry
  PHY 130 General Physics I and
  PHY 131 General Physics I Laboratory
  PHY 132 General Physics II and
  PHY 133 General Physics II Laboratory

• Social and Self-Awareness and Responsible Citizenship
  EDP 260 Psychology of Human Development

• University Studies Electives
  CSC 199 Introduction to Information Technology
  EDU 103 Issues and Practices of American Education

Note: Certification requires a grade of B or better in one English composition course and a B or better in a University Studies math course, public speaking, and EDU 103 or equivalent course. Additional requirements for admission to teacher education and student teaching must be met. See advisor and/or Office of Teacher Education Services for details.

Required Courses ........................................................................ 30 hrs
CHE 100T Transitions
CHE 120 Chemical Laboratory Safety
CHE 201 General College Chemistry
CHE 202 General Chemistry and Qualitative Analysis
CHE 305 Analytical Chemistry
CHE 312 Organic Chemistry I
CHE 320 Organic Chemistry II
CHE 403 Basic Physical Chemistry

Required Limited Electives ....................................................... 3-4 hrs
Select from the following:
CHE 330 Basic Biochemistry
CHE 352 Basic Chemical Instrumentation
CHE 504 Fundamentals of Toxicology
CHE 513 Environmental Chemistry

Secondary Certification Courses ............................................. 32 hrs
EDU 303 Strategies of Teaching
EDU 403 Structures and Foundations of Education
EDU 405 Evaluation and Measurement in Education
SEC 420 Practicum in Secondary Schools
SEC 421 Student Teaching in the Secondary School
SEC 422 Extended Practicum
SED 300 Educating Students with Disabilities

Required Minor ........................................................................... 21 hrs

Total Curriculum Requirements ...................................... 127-136 hrs

1 Required for major if not taken as a University Studies elective. Students pursuing a Physics minor may substitute PHY 235/236 and 255/256 for PHY 130/131 and 132/133.
2 Required for secondary certification if not taken as a University Studies elective.
3 May substitute CSC 232 or EGR 140, but these will not count for University Studies electives.
4 With a grade of C or better.
5 EDU 405 and SEC 420 must be taken together and two semesters before student teaching.
6 Must be taken one semester before student teaching.
Chemistry Teaching Specialization

The teaching specialization in chemistry is a path to secondary certification in chemistry, designed to accompany certification in another science content area. (All College of Education and Human Services secondary certification course requirements must be met.) The teaching specialization in chemistry meets and exceeds Murray State University's requirements for a minor in chemistry. **Note:** Even though this program exceeds Murray State University's requirements for a chemistry minor, in order for a chemistry minor to appear on a transcript, a minor must be declared, and all residential and graduation requirements must be met.

Requirements for teacher certification are established by the Kentucky Education Professional Standards Board. Students are cautioned that changes in these requirements may occur. Therefore, for the most current information, students should check with an advisor in the College of Education and Human Services.

Required Minor\(^3\) .................................................... 21 hrs

Unrestricted Electives ............................................. 17-20 hrs

Total Curriculum Requirements .................................... 120 hrs

\(^1\) Required for major if not taken as a University Studies elective.

\(^2\) CSC 232 or EGR 140 may be substituted.

\(^3\) Biology minor strongly recommended.
MAJOR:  
Chemistry/Biochemistry Track

Bachelor of Science/Bachelor of Arts Degree  
CIP 40.0501

University Studies Requirements ......................... 41-44 hrs  
(See Academic Degrees and Programs.)

University Studies selections must include:
*Scientific Inquiry, Methodologies, and Quantitative Skills*
MAT 250 Calculus and Analytic Geometry I \(^1\)
PHY 130 General Physics I \(^1\) and
PHY 131 General Physics I Laboratory \(^1\)
PHY 132 General Physics II \(^1\) and
PHY 133 General Physics II Laboratory \(^1\)

Required Courses ............................................. 44 hrs  
CHE 100T Transitions
CHE 201 General College Chemistry
CHE 202 General Chemistry and Qualitative Analysis
CHE 305 Analytical Chemistry
CHE 312 Organic Chemistry I
CHE 320 Organic Chemistry II
CHE 352 Basic Chemical Instrumentation
CHE 403 Basic Physical Chemistry
CHE 530 Fundamentals of Biochemistry I
CHE 537 Experimental Biochemistry
CHE 540 Fundamentals of Biochemistry II
CSC 235 Programming in C++ \(^2\)

Required Minor \(^3\) ............................................. 21 hrs

Electives ............................................................ 11-14 hrs

Total Curriculum Requirements .............................. 120 hrs

\(^1\)Required for major if not taken as a University Studies elective.
\(^2\)CSC 232 or EGR 140 may be substituted.
\(^3\)Biology minor is strongly recommended.

MAJOR:  
Chemistry/Forensics Track

Bachelor of Science/Bachelor of Arts Degree  
CIP 40.0501

University Studies Requirements ......................... 41-44 hrs  
(See Academic Degrees and Programs.)

University Studies selections must include:
*Scientific Inquiry, Methodologies, and Quantitative Skills*
MAT 250 Calculus and Analytic Geometry I
PHY 130 General Physics I \(^1\) and
PHY 131 General Physics I Laboratory \(^1\)
PHY 132 General Physics II \(^1\) and
PHY 133 General Physics II Laboratory \(^1\)

CHE 201 General College Chemistry
CHE 202 General Chemistry and Qualitative Analysis
CHE 305 Analytical Chemistry
CHE 312 Organic Chemistry I
CHE 320  Organic Chemistry II  
CHE 325  Organic Chemistry II Laboratory  
CHE 403  Basic Physical Chemistry I  
CSC 235  Programming in C++

**Required Limited Electives** .................................................................. 10 hrs  
ARC 335  Forensic Archaeology  
CHE 330  Basic Biochemistry  
CHE 352  Basic Chemical Instrumentation

**Criminal Justice Minor** .................................................................. 21 hrs  
CRI 220, 333, and 346 are required selections.

**Unrestricted Electives** .................................................................. 11-14 hrs

**Total Curriculum Requirements** ......................................................... 120 hrs

1 Required for major if not taken as a University Studies elective.  
2 CSC 232 or EGR 140 may be substituted.  
3 A second major in Criminal Justice can substitute for the minor.

---

**MAJOR:**  
**Chemistry/Polymer and Materials Science Track**

Bachelor of Science/Bachelor of Arts Degree  
CIP 40.0501

**University Studies Requirements** .................................................. 38-44 hrs  
(See Academic Degrees and Programs.)

University Studies selections must include:  
*Scientific Inquiry, Methodologies, and Quantitative Skills*  
MAT 250  Calculus and Analytic Geometry I

**Required Courses** ........................................................................ 51 hrs  
CHE 100T  Transitions  
CHE 201  General College Chemistry  
CHE 202  General Chemistry and Qualitative Analysis  
CHE 305  Analytical Chemistry  
CHE 312  Organic Chemistry I  
CHE 320  Organic Chemistry II  
CHE 352  Basic Chemical Instrumentation  
CHE 503  Industrial Chemistry  
CHE 576  Polymer Chemistry  
CSC 235  Programming in C++

**Required Limited Electives** .......................................................... 3 hrs  
CHE 488  Cooperative Education/Internship  
or  
CHE 495  Senior Research

**Required Minor** ............................................................................... 11-21 hrs

**Unrestricted Electives** ................................................................. 1-17 hrs

**Total Curriculum Requirements** .................................................. 120 hrs

1 Required for major if not taken as a University Studies elective.  
2 CSC 232 or EGR 140 may be substituted.  
3 PHY 235, 236, 255, and 256 count toward a physics minor, with 11 additional hours remaining; otherwise, 21 hours are required to complete a minor.
MAJOR:
Chemistry/Pre-Pharmacy Track\(^1\)

Bachelor of Science/Bachelor of Arts Degree
CIP 40.0501

University Studies Requirements ........................................... 41-44 hrs
(See Academic Degrees and Programs.)

University Studies selections must include:

- **Scientific Inquiry, Methodologies, and Quantitative Skills**
  - MAT 250 Calculus and Analytic Geometry \(^1\)
  - PHY 130 General Physics \(^1\)
  - PHY 131 General Physics I Laboratory\(^2\)
  - PHY 132 General Physics II\(^2\)
  - PHY 133 General Physics II Laboratory\(^2\)

- **Social and Self-Awareness and Responsible Citizenship**
  - ECO 231 Principles of Microeconomics

Required Courses ............................................................... 46 hrs

- CHE 100T Transitions
- CHE 201 General College Chemistry
- CHE 202 General Chemistry and Qualitative Analysis
- CHE 305 Analytical Chemistry
- CHE 312 Organic Chemistry I
- CHE 320 Organic Chemistry II
- CHE 325 Organic Chemistry II Laboratory
- CHE 330 Basic Biochemistry
- CHE 352 Basic Chemical Instrumentation
- CHE 403 Basic Physical Chemistry I
- CSC 235 Programming in C++\(^3\)
- MAT 135 Introduction to Probability and Statistics

Required Minor\(^4\) ............................................................. 21 hrs

Unrestricted Electives ....................................................... 9-12 hrs

Total Curriculum Requirements .......................................... 120 hrs

\(^1\)Colleges of pharmacy will have somewhat different requirements from those listed above. The curriculum can be modified to meet the requirements of most professional programs.

\(^2\)Required for major if not taken as a University Studies elective.

\(^3\)CSC 232 or EGR 140 may be substituted.

\(^4\)Biology minor is strongly recommended.

MAJOR:
Chemistry/Pre-MBA Track

Bachelor of Science/Bachelor of Arts Degree
CIP 40.0501

University Studies Requirements ........................................... 41-44 hrs
(See Academic Degrees and Programs.)

University Studies selections must include:

- **Scientific Inquiry, Methodologies, and Quantitative Skills**
  - MAT 250 Calculus and Analytic Geometry \(^1\)
  - PHY 130 General Physics \(^1\)
  - PHY 131 General Physics I Laboratory\(^1\)
  - PHY 132 General Physics II\(^1\)
  - PHY 133 General Physics II Laboratory\(^1\)

- **Social and Self-Awareness and Responsible Citizenship**
  - ECO 230 Principles of Macroeconomics\(^1\)
Required Courses ............................................................ 35 hrs
CHE 100T Transitions
CHE 201 General College Chemistry
CHE 202 General Chemistry and Qualitative Analysis
CHE 305 Analytical Chemistry
CHE 312 Organic Chemistry I
CHE 320 Organic Chemistry II
CHE 352 Basic Chemical Instrumentation
CHE 403 Basic Physical Chemistry
CSC 235 Programming in C++

Required Business Courses/Minor3 .................................... 24 hrs
ACC 200 Principles of Financial Accounting
ACC 201 Principles of Managerial Accounting
BUS 355 Information Systems and Decision Making
CIS 443 Business Statistics III
ECO 231 Principles of Microeconomics
FIN 330 Principles of Finance
MGT 350 Fundamentals of Management
MKT 360 Principles of Marketing

Unrestricted Electives .................................................... 17-20 hrs

Total Curriculum Requirements ......................................... 120 hrs
1 Required for major if not taken as a University Studies elective.
2 CSC 232 or EGR 140 may be substituted.
3 Even though this program exceeds Murray State University’s requirements for a business administration minor, for a business administration minor to appear on a transcript, a minor must be declared, and all residential and graduation requirements must be met.

Chemistry Minor ............................................................ 21 hrs
CHE 201, 202 and electives selected from the following chemistry courses: 305, 312, 320, 325, 352, 400, 401, 403, 410, 420, 488, 495, and 330 or 530, but not both. A maximum of three hours may be counted from CHE 488. At least 21 hours is required. Six hours must be 300-level or above courses completed in residence at Murray State University.

Graduate Programs
Graduate Coordinator - Kevin Revell

The Department of Chemistry offers the M.S. in Chemistry which is designed to prepare students for additional graduate work, as well as for immediate employment in industry or community colleges. Both thesis and non-thesis requirements are offered.

Master of Science in Chemistry

CIP 40.0501

Requirements for Admission
Applicants must meet the Murray State University requirements (see Graduate Admissions). Additional information regarding unconditional and conditional admission is given below.

Unconditional
To qualify for unconditional admission, an applicant must have:
1. an undergraduate degree in chemistry;
2. an overall undergraduate GPA of 3.0/4.0 or higher;
3. minimum GRE scores of: 140 verbal, 150 quantitative, 2.5 analytical writing;
4. for international students, minimum scores of: TOEFL 527, iBT TOEFL 71, with no band less than 16, or IELTS 6.0 with no band less than 5.0.
If the undergraduate degree does not conform to an ACS-certified program, students may be required to correct any deficiency in their undergraduate preparation.

Conditional
In exceptional cases (such as extensive work or research experience), students falling slightly below one of the unconditional admission benchmarks may still be considered for conditional admission. Applicants with TOEFL scores between 500 and 526 may be admitted on a conditional basis, but their proficiency in English will be further evaluated upon their arrival on campus, and they may be required to undertake additional study of English prior to beginning graduate work in chemistry.
THESIS REQUIREMENTS

Total Course Requirements ................................................. 30 hours
CHE 601 Seminar  
CHE 602 Seminar  
CHE 609 Advanced Inorganic Chemistry I  
CHE 617 Advanced Organic Chemistry  
CHE 681 Advanced Physical Chemistry

Research and Other Requirements
CHE 698–699 PT Thesis Research  
600-level courses (13 hrs)  
(Up to six hours may be selected from courses other than CHE.)  
1Each student is required to prepare and present one seminar based on a thorough search of the chemical literature and one based on the student’s thesis research.

Other Degree Requirements
• Successful completion of an advanced instrumental analysis course (CHE 619 or equivalent).
• Submission and defense of a satisfactory thesis.

NON-THESIS REQUIREMENTS

Total Course Requirements ................................................. 36 hours
CHE 601 Seminar  
CHE 602 Seminar  
CHE 609 Advanced Inorganic Chemistry I  
CHE 617 Advanced Organic Chemistry  
CHE 681 Advanced Physical Chemistry  
600-level courses (22 hrs)  
(Up to nine hours may be selected from courses other than CHE.)  
2CHE 691, 692, and 693 will not count toward completion of this degree.
2Each student is required to prepare and present two seminars based on a thorough search of the chemical literature.

Other Degree Requirements
• Successful completion of an advanced instrumental analysis course (CHE 619 or equivalent).
• CHE 600-level electives to total 36 hours.

Master of Science in Chemical Manufacturing Management

CIP 41.0301

Requirements for Admission
 Applicants must meet the Murray State University requirements (see Graduate Admissions). Additional information regarding unconditional and conditional admission is given below.

Unconditional
 To qualify for unconditional admission, an applicant must have an overall grade point average of 3.0 on a 4.0 scale in a chemistry-related field.

Conditional
 Requirements for conditional admission are the same as MSU requirements.

THESIS REQUIREMENTS

Total Course Requirements ................................................. 30 hours

Core Courses ................................................................. 18 hours
Six courses chosen from the following:
CET 682 Industrial Ecology  
CHE 600 Chemistry of Fuels  
CHE 603 Industrial Chemistry  
CHE 617 Advanced Organic Chemistry  
CHE 627 Chemical Separations  
CHE 676 Polymer Chemistry  
IET 684 Engineering Economic Analysis  
IET 691 Industrial Operations  
IET 693 Systems Management Technology
Other Course Requirements ........................................... 12 hours

Four additional elective courses chosen from the list of core courses and/or from the following:

- CHE 609 Advanced Inorganic Chemistry I
- CHE 610 Chemical Thermodynamics
- CHE 613 Environmental Chemistry
- CHE 619 Instrumental Analysis
- CHE 628 Mass Spectrometry
- CHE 698 Thesis Research
- IET 644 Graduate Cooperative Education
- IET 679 Technical Writings
- IET 687 Quality Control
- IET 695 Industrial Supervision

1A minimum of four CHE courses from core and elective courses is required.
2Other elective courses may be approved by the graduate coordinator.
3Completion and defense of thesis required. The thesis must adhere to the requirements provided in Murray State’s Guidelines for the Preparation of the Master’s Thesis.

Master of Arts in Education Secondary Teacher Leader with Chemistry Concentration

CIP 13.1205

The Department of Chemistry provides instruction in support of the M.A.Ed. in Secondary Teacher Leader with a concentration in chemistry. Prospective students should contact the graduate coordinator in the College of Education and Human Services for details on advising and graduate program design.

Department of Geosciences

334 Blackburn Science Building
270-809-2591

Chair: George Kipphut. Faculty: Cetin, Homsey, Hong, Kipphut, Ortmann, Stinchcomb, Wesler, Zhang.

An area in geoscience with tracks in earth science, earth science teacher certification, environmental geology, geoarchaeology, and geographic information science are provided by the department faculty. Minors are offered in anthropology, archaeology, earth science, environmental geology, and geographic information science. An M.S. in Geosciences may also be earned.

In addition to the more traditional curricula, geosciences students have access to the Murray State Archaeology Lab, a summer field archaeology school, and the Mid-America Remote sensing Center (MARC), a core entity in the Murray State University Watershed Studies Institute (WSI).

Geosciences majors are encouraged to participate in internships and cooperative education experiences. Graduates have outstanding opportunities for employment as archaeologists, planners, cartographers, environmental geologists, remote sensing/GIS professionals, and other mapping science positions in business, government, and education.

AREA:
Geoscience/Earth Science Track

Bachelor of Science Degree
CIP 40.0601

University Studies Requirements ....................................... 38-43 hrs
(See Academic Degrees and Programs.)

Required Courses ......................................................... 46 hrs

- ARC 150 Introduction to Archaeology
- AST 115 Introductory Astronomy
- AST 116 Introductory Astronomy Laboratory
- GSC 100T Transitions
- GSC 101 The Earth and the Environment
- GSC 102 Earth through Time
- GSC 110 World Geography
- GSC 125 Weather and Climate
- GSC 202 Introduction to Geographic Information Sciences
- GSC 301 Understanding Scientific Communication
GSC 303 Introduction to Water Science
GSC 305 Introduction to Cartography
GSC 312 Introduction to Remote Sensing
GSC 336 Principles of Geomorphology
GSC 339 Field Geology
or
GSC 350 Field Techniques in Geosciences

**Required Limited Electives** ................................................. 9-10 hrs
Choose from the following approved electives:
BIO 101 Biological Concepts
BIO 112 Field Biology
CHE 105 Introductory Chemistry
CHE 201 General College Chemistry
GSC 210 Hydrology
GSC 306 Landscapes of the National Parks
GSC 310 Rock and Mineral Resources
GSC 314 Sediments and Soils
GSC 330 Economic Geography
GSC 390 Geoarchaeology
GSC 424 Conservation and Environmental Geosciences
GSC 489 Cooperative Education/Internship
GSC 507 Land Use Planning
GSC 512 Remote Sensing
GSC 521 Geographic Information Systems
GSC 522 Digital Cartography
GSC 562 Hydrogeology
GSC 591 Special Problems
GSC 592 Special Problems
GSC 593 Special Problems
PHY 235 Mechanics, Heat and Wave Motion
PHY 236 Mechanics, Heat and Wave Motion Laboratory

**Collateral requirement** .................................................. 8 hrs
MAT 150 (or above)
CSC 101 or CSC 199

**Unrestricted Electives** .................................................. 13-19 hrs

**Total Curriculum Requirements** .................................... 120 hrs

1 Will count towards University Studies Global Awareness, Cultural Diversity, and the World’s Artistic Tradition requirements.
2 Will count towards University Studies Scientific Inquiry, Methodologies, and Quantitative Skills requirements.
3 This is a University Studies electives writing-intensive or technology-intensive course.

---

**AREA:**
**Geoscience/Earth Science Track/Secondary Certification  (Grades 8-12)**

Bachelor of Science Degree
CIP 40.0601

**University Studies Requirements** ................................. 44 hrs
(See Academic Degrees and Programs.)

University Studies selections must include:
• **Scientific Inquiry, Methodologies, and Quantitative Skills**
  GSC 101 The Earth and the Environment
  GSC 102 Earth through Time
  MAT 150 Algebra and Trigonometry
• **Global Awareness, Cultural Diversity and the World’s Artistic Traditions**
  GSC 110 World Geography
• **Social and Self-Awareness and Responsible Citizenship**
  EDP 260 Psychology of Human Development
• University Studies Electives
ARC 150 Introduction to Archaeology
CSC 101 Introduction to Problem Solving Using Computers
EDU 103 Issues and Practices of American Education

Note: Certification requires a grade of B or better in one English composition course and a B or better in a University Studies math course, public speaking, and EDU 103 or equivalent course. Additional requirements for admission to teacher education and student teaching must be met. See advisor and/or Office of Teacher Education Services for details.

Required Courses ............................................................ 32 hrs
AST  115  Introductory Astronomy
AST  116  Introductory Astronomy Laboratory
GSC  100T Transitions
GSC  125  Weather and Climate
GSC  202  Introduction to Geographic Information Sciences
GSC  301  Understanding Scientific Communication
GSC  303  Introduction to Water Science
GSC  305  Introduction to Cartography
GSC  312  Introduction to Remote Sensing
GSC  336  Principles of Geomorphology
GSC  339  Field Geology
or
GSC  350  Field Techniques in Geosciences

Required Limited Electives .................................................. 12 hrs
Select upper-level courses from the list of approved geology electives given under the track in environmental geology, below.

The National Science Teachers Association (NSTA) recommends a minimum of one course from each of the following three areas, with total of recommended supplemental science hours to include no fewer than 16 semester hours.

A. Biology
BIO 101 Biological Concepts
BIO 112 Field Biology
BIO 221 Zoology: Animal Form and Function
BIO 222 Botany: Plant Form and Function

B. Chemistry
CHE 101 Consumer Chemistry
CHE 105 Introductory Chemistry
CHE 201 General College Chemistry
CHE 202 General Chemistry and Qualitative Analysis

C. Physics
PHY 235 Mechanics, Heat and Wave Motion
and
PHY 236 Mechanics, Heat and Wave Motion Laboratory
PHY 255 Electricity, Magnetism and Light
and
PHY 256 Electricity, Magnetism and Light Laboratory

Required for Secondary Certification ................................. 32 hrs
EDU 303 Strategies of Teaching
EDU 403 Structures and Foundations of Education
EDU 405 Evaluation and Measurement in Education
SEC 420 Practicum in Secondary Schools
SEC 421 Student Teaching in the Secondary School
SEC 422 Extended Practicum
SED 300 Educating Students with Disabilities

Total Curriculum Requirements ................................. 120 hrs

1Must be taken together and two semesters before student teaching.
2Must be taken one semester before student teaching.
Earth Science Teaching Specialization

The teaching specialization in earth science is a path to secondary certification in earth science designed to accompany certification in another science content area (biology/chemistry/physics). All College of Education secondary certification course requirements must be met.

Note: Even though this program exceeds Murray State University’s requirements for an earth science minor, in order for a earth science minor to appear on a transcript, a minor must be declared, and all residential and graduation requirements must be met.

Requirements for teacher certification are established by the Kentucky Education Professional Standards Board. Students are cautioned that changes in these requirements may occur. Therefore, for the most current information, students should check with an advisor in the College of Education.

Earth Science Teaching Specialization .............................. 30 hrs
AST  115  Introductory Astronomy
AST  116  Introductory Astronomy Laboratory

- GSC 330 Economic Geography
- GSC 336 Principles of Geomorphology
- GSC 512 Remote Sensing
- GSC 521 Geographic Information Systems
Required Limited Electives ........................................... 10-11 hrs

Choose from the following approved electives:

GSC 210 Hydrology
GSC 303 Introduction to Water Science
GSC 306 Landscapes of the National Park
GSC 310 Rock and Mineral Resources
GSC 314 Sediments and Soils
GSC 350 Field Techniques in Geosciences
GSC 390 Geoarchaeology
GSC 424 Conservation and Environmental Geosciences
GSC 488 Cooperative Education/Internship
GSC 489 Cooperative Education/Internship
GSC 507 Land Use Planning
GSC 562 Hydrogeology
GSC 591 Special Problems
GSC 592 Special Problems
GSC 593 Special Problems

Collateral requirement .................................................. 8 hrs
MAT 150\(^2\) (or above)
CSC 101\(^3\) or CSC 199\(^3\)

Unrestricted Electives .................................................. 15-21 hrs

Total Curriculum Requirements ....................................... 120 hrs

\(^1\)Will count towards University Studies Scientific Inquiry, Methodologies, and Quantitative Skills requirements.

\(^2\)Will count towards University Studies Global Awareness, Cultural Diversity, and the World's Artistic Tradition requirements.

\(^3\)This is a University Studies electives writing-intensive or technology-intensive course.

Anthropology Minor ..................................................... 21 hrs

Note: The Anthropology Minor is suspended at this time. No new students may declare this minor until further notice. Contact the department for further information. ANT 140, ANT 325, ARC 150, plus 12 hours of ANT 300-level or above electives. Electives may include ARC 325, 330, 340, and 385. Electives may substitute up to six hours selected from the following as approved by advisor: HIS 309, 354, 370, 451, SOC 337, 434. Six hours must be upper-level courses completed in residence at Murray State University.

Archaeology Minor ..................................................... 21 hrs

ARC 150, 300, 302, 304, 350, plus six hours of ARC electives 300-level or above. Six hours must be upper-level courses completed in residence at Murray State University.

Earth Science Minor .................................................... 21 hrs

GSC 101, 102, 125, and 339 or 350. Six additional hours selected from the following: AST 115, 116; GSC 202, 210, 303, 310, 312, 336, 591, 592, 593. Six hours must be upper-level courses completed in residence at Murray State University.

Environmental Geology Minor ....................................... 21 hrs

GSC 101, 102, 202, and three additional geology courses chosen with the advice and consent of the chair of the Department of Geosciences. Six hours must be upper-level courses completed in residence at Murray State University.

Geographic Information Science Minor ............................ 21 hrs

GSC 110, 125, 202, 305, and seven hours of electives selected from the following: GSC 312, 350, 507, 512, 521, 522, 591, 592, 593. Six hours must be upper-level courses completed in residence at Murray State University.

Social Science Minor ................................................... 24 hrs

Open only to majors in economics, geoscience, history, or political science who seek secondary certification in social studies. ECO 231, GSC 110, HIS 221, POL 140, SOC 133; and six hours of upper level courses (300 or above) from the social science disciplines with approval of advisor. Courses required for a major may not be counted toward the minor; substitutions must be from a social science discipline other than the major and be approved by the advisor; and requirements for certification for teaching secondary school social studies, grades 8 through 12 through the College of Education must also be met. Six hours must be upper-level courses completed in residence at Murray State University.
Business Geographic Information Systems

The undergraduate certificate in Business Geographic Information Systems (GIS) is designed to provide students in business disciplines and geosciences the opportunity to develop competence in the application of geographic information system tools to business decision making. In this context, the certificate may be completed by marketing, business administration, and geoscience students as part of their degree program.

CERTIFICATE:
Business Geographic Information Systems

CIP 52.1401

Total Course Requirements ............................................ 19 hours
BUS 140 Introduction to Business
  or
MKT 360 Principles of Marketing
GSC 521 Geographic Information Systems
MKT 475 Marketing Strategies for eCommerce
  or
MKT 579 Social Media Consulting
MKT 485 Business GIS in Marketing
MKT 585 Integrated Business GIS

Graduate Program

Graduate Coordinator - Kit Wesler

The Department of Geosciences offers a Master of Science degree that focuses upon applications of remote sensing, archaeologic and geographic information technologies. Students are prepared for positions in the public and private sectors and study at the Ph.D. level. Geosciences is closely associated with the Mid-America Remote sensing Center (MARC) where hardware and software related to remote sensing and geographic information science are located. Students also have the opportunity to conduct research through activities of the department’s Archaeology Laboratory.

Requirements for Admission

Applicants must meet the Murray State University requirements (see Graduate Admissions). The department requires that three letters of recommendation and GRE scores accompany application materials. A letter discussing reasons for the applicant’s interest in the program should also be forwarded. Additional requirements for unconditional and conditional admission are as follows.

Unconditional

To qualify for unconditional admission, an applicant must have an overall grade point average of 3.0 (on a 4.0 scale) in a geoscience (or related) field and a composite GRE score (V+Q) of 1,000 old scale or 300 new scale.

Conditional

Students admitted conditionally are admitted to full standing after completing (1) any remedial courses required by the graduate faculty and (2) one semester of graduate work with an overall grade point average of 3.0 or above.

Master of Science in Geosciences

CIP 40.0699

The student’s program is developed in consultation with the graduate coordinator.

THESIS REQUIREMENTS

Total Course Requirements ............................................ 30 hours
GSC 612 Remote Sensing
GSC 619 Seminar in Research Techniques
GSC 621 Geographic Information Systems
GSC 640 Advanced Remote Sensing
GSC 680 Advanced Geographic Information Systems
GSC 696 Understanding Scientific Communication
GSC courses at 600-level (3 hrs)
GSC or related courses at 600-level (2 hrs)
GSC 698-699 Thesis Research
Other Degree Requirements
• Proficiency in quantitative methods through MAT 665.
• Oral defense of thesis.

NON-THESIS REQUIREMENTS
Total Course Requirements ............................................. 33 hours
Same as above with the following substitution for thesis:
GSC courses, at 600-level ........................................ increase to 6 hrs
GSC or related courses at 600-level...................... increase to 8 hrs

Other Degree Requirements
• Proficiency in quantitative methods through MAT 665.
• Written and oral comprehensive examinations.

Institute of Engineering
263A Collins Center
270-809-3392

Chair: Danny Claiborne. Faculty: Ashburn, Bahadir, Chitikeshi, Claiborne, Crofton, Ford, Giltner, Hardin, Hereford, Hildebrant, Kellie, Kemp, Kobraei, Leedy, Okuda, Ottway, Palmer, Payne, Perry, Ridley, Rogers, Schneiderman, Siebold, Thiede, Tubbs, Yarali, Zirbel.

The Institute of Engineering offers undergraduate programs in engineering, engineering technology, industrial technology and design, physics and telecommunications systems management. It also offers a graduate program in applied engineering and technology management.

Murray State University offers a Bachelor of Science in Engineering (B.S.E.) as a major in engineering physics. The Engineering Physics program has four tracks in mechanical engineering, electrical engineering, biomedical engineering and advanced physics. In all of these areas, students will learn to use advanced analytical techniques in solving engineering problems, and will develop the applied background to attack new engineering challenges creatively.

Murray State's Engineering Physics degree is an engineering program accredited by the Engineering Accreditation Commission of the ABET (EAC/ABET). This accreditation will place a student on the pathway to become a licensed engineer in Kentucky and throughout the country. Recognition by this organization has been earned by fewer than 20 Engineering Physics programs nationwide.

The Institute of Engineering offers strong undergraduate programs in engineering technology, which are: architectural engineering technology, civil engineering technology, construction engineering technology, electromechanical engineering technology and environmental engineering technology. Graduates from these programs are prepared to succeed in a modern industrial environment.

The Industrial Technology and Design program at MSU offers tracks in engineering graphics and design, interior design and manufacturing technology. Graduates from these programs are able to apply product and process design for products related to manufacturing or architectural design.

Students interested in physics have two attractive degree options. The traditional physics major is accompanied by a flexible area in applied physics, where a student can design curricular choices to fit their chosen professional goals. These degrees are well-suited to students desiring teaching certification, or intending to pursue graduate degrees or corporate/industrial research positions.

Kentucky's Program of Distinction in Telecommunications Systems Management (TSM) is also offered by the Institute of Engineering. The TSM program is actually an interdisciplinary program between the Jesse D. Jones College of Science, Engineering and Technology and the Arthur J. Bauernfeind College of Business. The TSM program prepares graduates to work on cutting-edge information technologies related to wireless technology, security, and network administration while also applying concepts toward business decisions and critical strategic planning as it relates to telecommunications systems.

Engineering Accreditation
The B.S.E. in Engineering Physics (including all tracks in biomedical, electrical, mechanical and advanced physics) is an engineering program accredited by the Engineering Accreditation Commission of the ABET (EAC/ABET), 415 415 North Charles Street, Baltimore, MD 21201. Phone (410) 347-7700. This accreditation will place a student on the pathway to become a licensed engineer in Kentucky and throughout the country.

Engineering Technology Accreditation
The Engineering Technology Accreditation Commission of ABET (ETAC/ABET) accredits Murray State programs in civil and construction engineering technology. The Civil Engineering Technology/General Track and the Civil Engineering Technology/Construction Track programs are accredited by the Engineering Technology Accreditation Commission of ABET, 415 North Charles Street, Baltimore, MD 21201. Phone (410) 347-7700.
AREA: Engineering Physics

Bachelor of Science in Engineering Degree
CIP 14.1201

ACCREDITED BY:
Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (EAC/ABET)

University Studies Requirements ............................. 38-43 hrs
(See Academic Degrees and Programs.)

University Studies selections must include:
• Social and Self-Awareness and Responsible Citizenship
ECO 231 Principles of Microeconomics
or
HON 232 Honors Seminar in Economics

Core Courses .......................................................... 52 hrs
CHE 201 General College Chemistry\(^2,3\)
EGR 100T Transitions
EGR 101 Introduction to Engineering\(^4\)
EGR 140 Introduction to Computing Applications in Science and Engineering
EGR 240 Thermodynamics I
EGR 259 Statics
EGR 264 Linear Circuits I
EGR 330 Dynamics
EGR 363 Signals and Systems
EGR 375 Materials Science
EGR 390 Engineering Measurements
EGR 460 Electricity and Magnetism I
EGR 498 Senior Engineering Design I
EGR 499 Senior Engineering Design II
MAT 250 Calculus and Analytic Geometry \(^2,3\)
MAT 308 Calculus and Analytic Geometry \(^2,3\)
MAT 309 Calculus and Analytic Geometry \(^2,3\)
MAT 338 Ordinary Differential Equations\(^3\)
PHY 235 Mechanics, Heat and Wave Motion\(^2\)
PHY 236 Mechanics, Heat and Wave Motion Laboratory\(^2\)
PHY 255 Electricity, Magnetism and Light
PHY 256 Electricity, Magnetism and Light Laboratory
PHY 370 Introduction to Modern Physics
PHY 470 Optics

Advanced Physics Track
Completion of nine hours of 300-level and above PHY courses beyond the core course requirements.

Biomedical Engineering Track\(^5\)
BIO 115 Cellular Basis of Life
BIO 322 Animal Physiology
CHE 202 General Chemistry and Qualitative Analysis
CHE 312 Organic Chemistry I
EGR 310 Fundamentals of Biomedical Engineering

Electrical Engineering Track
Choose four of the following courses:
EGR 360 Electric Machines
EGR 365 Linear Circuits II
EGR 366 Analog Electronics I
EGR 376 Computational Analysis in Engineering
EGR 378 Logic Design I
EGR 461 Electricity and Magnetism II
EGR 463 Power Systems
EGR 466 Power Electronics
EGR 468 Digital Signal Processing
Mechanical Engineering Track

Choose four of the following courses:

- EGR 340 Wave Analysis of Dynamic Systems
- EGR 342 Thermodynamics II
- EGR 344 Fluid Mechanics
- EGR 346 Heat Transfer
- EGR 359 Mechanics of Materials
- EGR 459 Mechanical Design
- ITD 102 CAD Applications

Mathematics Depth Elective¹ .............................................. 3-4 hrs
Each student must complete a mathematics depth elective chosen from MAT 335, 440, 442, 450, 460, 508, 512, 513, 522, 523, 524, 525, 535, 538, 540, 541, 542, 545, 554, 570, or as approved by the department chair. Students with a Biomedical Engineering track must take MAT 135, 540, or 554 for this elective.

Technical Electives²,³ ...................................................... 18-29 hrs
Each student must complete 18 hours of technical electives. A minimum of 12 technical elective credit hours must be obtained from EGR courses. Completion of a track is encouraged but not required.

Unrestricted Elective ........................................................ 0-9 hrs

Total Curriculum Requirements ........................................ 120-128 hrs

¹This degree program has been approved by the Kentucky Education Professional Standards Board as a track for secondary education certification in physics. Students seeking certification via this Track must complete the Engineering Physics curriculum and the courses required for secondary certification as listed above. For current information, students should consult an advisor in the Department of Adolescent, Career, and Special Education and with Teacher Education Services.

²These courses are required and also fulfill University Studies requirements.

³This course is considered a program corequisite and may be shared with a minor or second major.

⁴Previous credit for EGR 195 fulfills this requirement.

⁵Students completing the track in biomedical engineering and intending to seek admission to medical school are encouraged to complete the following: BIO 321, 333; CHE 320 and 325.

⁶Technical Electives must come from the courses listed in the areas of emphasis or EGR/PHY courses, 300-level and above, or as approved by department chair.

⁷A maximum of six technical elective credit hours may come from combinations of EGR/PHY 488, 489, 520, and EGR 388.

Engineering Science Minor ............................................. 22 hrs
EGR 240, 259, 264, and 330, plus nine additional hours of engineering-related courses approved by an advisor in the Department of Engineering and Physics. Six hours must be upper-level courses completed in residence at Murray State University.

Pre-Engineering Curriculum (64 hrs)

- CHE 201 General College Chemistry
- CHE 202 General Chemistry and Qualitative Analysis
- EGR 140 Introduction to Computing Applications in Science and Engineering
- MAT 250 Calculus and Analytic Geometry I
- MAT 308 Calculus and Analytic Geometry II
- MAT 309 Calculus and Analytic Geometry III
- MAT 338 Ordinary Differential Equations
- PHY 235 Mechanics, Heat and Wave Motion
- PHY 236 Mechanics, Heat and Wave Motion Laboratory
- PHY 255 Electricity, Magnetism and Light
- PHY 256 Electricity, Magnetism and Light Laboratory
- University Studies courses
- Discipline-specific courses
MAJOR:  
Physics

Bachelor of Science/Bachelor of Arts Degree  
CIP 40.0801

University Studies Requirements ........................................ 38-44 hrs  
(See Academic Degrees and Programs.)  
Note: See required courses below before selecting Scientific Inquiry, Methodologies, and Quantitative Skills University Studies electives.

MAT 308 Calculus and Analytic Geometry II ¹, ²  
MAT 309 Calculus and Analytic Geometry III ¹, ²  
MAT 338 Ordinary Differential Equations²

Required Limited Electives .................................................. 3 hrs  
PHY/EGR courses numbered 300 or above.

Required Minor ............................................................... 3-21 hrs²

Unrestricted Electives ......................................................... 14-20 hrs

Total Curriculum Requirements ........................................ 120 hrs

¹Fulfill University Studies requirements. Required for major if not taken as a University Studies requirement.  
²CHE 201 and 202 fulfill requirements for a minor in chemistry; MAT 250, 308, 309, 338, and 442 fulfill requirements for a minor in math.

MAJOR:  
Physics/Secondary Certification (Grades 8-12)

Bachelor of Science/Bachelor of Arts Degree  
CIP 40.0801

NOTE: Requirements for teacher certification are established by the Kentucky Education Professional Standards Board. Students are cautioned that changes in these requirements may occur. For current information, student should check with an advisor in the Department of Adolescent, Career and Special Education and with Teacher Education Services.

University Studies Requirements ........................................ 38-44 hrs  
(See Academic Degrees and Programs.)

University Studies selections must include:  
• Social and Self-Awareness and Responsible Citizenship  
EDP 260 Psychology of Human Development  
Note: Certification requires a grade of B or better in one English composition course and a B or better in a University Studies math course, public speaking, and EDU 103 or equivalent course. Additional requirements for admission to teacher education and student teaching must be met. See advisor and/or Office of Teacher Education Services for details.
Required Courses ............................................................ 32 hrs
EGR 140 Introduction to Computing Applications in Science and Engineering
EGR 240 Thermodynamics I
EGR 390 Engineering Measurements
PHY 100T Transitions
PHY 235 Mechanics, Heat and Wave Motion
PHY 236 Mechanics, Heat and Wave Motion Laboratory
PHY 255 Electricity, Magnetism and Light
PHY 256 Electricity, Magnetism and Light Laboratory
PHY 460 Electricity and Magnetism I
PHY 470 Optics
PHY 530 Mechanics I
PHY 580 Modern Physics I

Co-requirements for Major ................................................... 6 hrs
CHE 201 General College Chemistry\(^1,2\)
CHE 202 General Chemistry and Qualitative Analysis\(^1,2\)
CSC 420 Numerical Analysis I
or
MAT 442 Introduction to Numerical Analysis\(^2\)
MAT 250 Calculus and Analytic Geometry II\(^1,2\)
MAT 308 Calculus and Analytic Geometry II\(^1,2\)
MAT 309 Calculus and Analytic Geometry III\(^1,2\)
MAT 338 Ordinary Differential Equations\(^2\)

Required Limited Electives .................................................. 3 hrs
PHY/EGR courses numbered 300-level or above.

Required for Secondary Certification ................................. 35 hrs
EDU 103 Issues and Practices of American Education\(^3\)
EDU 303 Strategies of Teaching
EDU 403 Structures and Foundations of Education
EDU 405 Evaluation and Measurement in Education\(^4\)
SEC 420 Practicum in Secondary Schools\(^5\)
SEC 421 Student Teaching in the Secondary School
SEC 422 Extended Practicum\(^6\)
SED 300 Educating Students with Disabilities

Required Minor ................................................................. 3-21 hrs\(^2\)

Total Curriculum Requirements ................................. 120-123 hrs

\(^1\)Fulfill University Studies requirements. Required for major if not taken as a University Studies requirement.
\(^2\)CHE 201 and 202 fulfill requirements for a minor in chemistry; MAT 250, 308, 309, 338 and 442 fulfill requirements for a minor in math.
\(^3\)With a grade of B or better.
\(^4\)EDU 405 and SEC 420 must be taken together and two semesters before student teaching.
\(^5\)Must be taken one semester before student teaching.

Physics Teaching Specialization

The teaching specialization in physics is a path to secondary certification in physics, designed to accompany certification in another science content area. (All College of Education and Human Services secondary certification course requirements must be met.) \textbf{Note}: Even though this program exceeds Murray State University’s requirements for a physics minor, in order for a physics minor to appear on a transcript, a minor must be declared, and all residential and graduation requirements must be met.

\textit{Requirements for teacher certification are established by the Kentucky Education Professional Standards Board and changes in these requirements may occur. Students should check with an advisor in the College of Education and Human Services for the most current information.}

AST 115 Introductory Astronomy
AST 116 Introductory Astronomy Laboratory

PHY 460 Electricity and Magnetism I
PHY 470 Optics
PHY 530 Mechanics I

Co-requirements for Area ......................................................... 6 hrs
CHE 201 General College Chemistry 1, 2
CHE 202 General Chemistry and Qualitative Analysis 1, 2
CSC 420 Numerical Analysis I
  or
MAT 442 Introduction to Numerical Analysis 2
MAT 250 Calculus and Analytic Geometry I 1, 2
MAT 308 Calculus and Analytic Geometry II 1, 2
MAT 309 Calculus and Analytic Geometry III 1, 2
MAT 338 Ordinary Differential Equations 2

Technical Electives 3 ................................................................. 24 hrs

Unrestricted Electives ............................................................. 13-19 hrs

Total Curriculum Requirements ......................................... 120 hrs
1 Fulfill University Studies requirements. Required for area if not taken as a University Studies requirement.
2 This course is considered a program corequisite and may be shared with a minor or second major.
3 The technical electives are to be a coherent set of courses chosen to supply depth and breadth necessary for the pursuit of a particular career objective. The chosen electives must be approved by a departmental curriculum committee.
AREA: Applied Physics/Pre-MBA Track

Bachelor of Science/Bachelor of Arts Degree
CIP 40.0801

Students who wish to complete a scientific course of study and qualify for admission to Murray State’s Master of Business Administration program may follow the Applied Physics Curriculum/Pre-MBA track. Course requirements are identical to those listed under the Applied Physics program, with the exception of technical electives. Technical electives must be chosen in accordance with MBA admission guidelines, and are as follows:

### Pre-MBA Required Electives

<table>
<thead>

#### Pre-MBA Required Electives

- **27 hrs**

### Unrestricted Electives

**6 hrs**

### Astronomy Minor

- **21 hrs**
  - AST 115, 116, 316; PHY 130, 131, 132, 133, and six additional hours of approved astronomy courses numbered 300 and above. PHY 235 and 255 may be substituted for PHY 130 and 132 with approval from the department chair. Physics majors must take CHE 201 and GSC 101 in place of PHY 130, 131, 132, and 133. Six hours must be upper-level courses completed in residence at Murray State University.

### Physics Minor

- **22 hrs**
  - PHY 235, 236, 255, 256, 370, and nine additional hours of approved physics courses numbered 300 and above. PHY 130 and 132 may be substituted for PHY 235 and 255 with approval from the department chair. Six hours must be upper-level courses completed in residence at Murray State University.

### Engineering Technology Accreditation

The Technology Accreditation Commission of ABET (TAC/ABET) accredits Murray State programs in civil and construction engineering technology. The Civil Engineering Technology/General Track and the Civil Engineering Technology/Construction Track programs are accredited by the Technology Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012. Phone (410) 347-7700.

### Professional Licensure

Students interested in pursuing a career as a professional land surveyor must complete courses specified by the Kentucky Board of Licensure for Professional Engineering and Land Surveyors (www.boels.ky.gov). Required courses may be taken as electives by students in the Civil Engineering Technology program under the supervision of an advisor. Students completing Board requirements normally sit for the Fundamentals of Surveying exam in their last semester at Murray State University.

### Engineering Technology

The Engineering Technology programs are: Architectural Engineering Technology, Civil Engineering Technology, Construction Engineering Technology, Electromechanical Engineering Technology, and Environmental Engineering Technology.

#### Civil Engineering Technology

A baccalaureate degree in civil engineering technology provides students with a background in the design of steel and concrete structures, surveying, soil mechanics and foundations, construction materials, and engineering mechanics. Potential employers include construction companies, consulting engineering and architectural firms, state and federal governments, municipalities, testing laboratories, surveying firms, utilities, and materials suppliers.

The civil engineering technology program prepares graduates for careers in design (working with a team of engineers or architects in the preparation of engineering or architectural design documents), construction (as a field engineer, project engineer, or surveyor), or technical sales. An associate degree in civil engineering technology may also be obtained from Murray State University.

#### Architectural Engineering Technology

A baccalaureate degree in architectural engineering technology provides students with a background in architectural design, computer-aided design, building design and structural design, steel and concrete structures, surveying and site planning, and construction estimating. Potential employers include architectural firms, construction (design/build) companies, consulting engineering firms, state and federal governments, municipalities, materials suppliers, and utilities. Architectural engineering technologists are educated in the process of taking a project from the drawing to the completed structure. Working together with architects and engineers, they assist in producing drawings and specifications for major construction projects. Architectural engineering technology prepares graduates for careers in architectural design,
planning, development, and construction as well as technical or sales positions in a variety of manufacturing organizations associated with the building industry. An architectural engineering technology graduate seeking registration/licensure as an architect would usually pursue a Master of Architecture degree, typically requiring two or three years of additional study.

**Construction Engineering Technology**
A baccalaureate degree in construction engineering technology provides students with experience in construction, estimating, project management, scheduling, surveying, building structures, construction materials, and engineering mechanics. The curriculum stresses the application of technical knowledge, construction methods, problem-solving ability, and communication skills toward the completion of large-scale construction projects. Career opportunities for the construction-engineering technologist are as diverse as the industry. Potential employers include construction companies, general contractors, subcontractors, construction equipment and materials suppliers, testing laboratories, governments, industrial companies, and utilities.

The construction engineering technology program prepares graduates for supervisory and managerial careers within the construction industry. With a degree in construction engineering technology, the student will be qualified for an entry-level position as a construction project engineer, project manager, estimator, sales engineer, or field engineer.

**Environmental Engineering Technology**
A baccalaureate degree in environmental engineering technology provides graduates with backgrounds in municipals and industrial water and wastewater treatment system design and operations, water pollution control, solid and hazardous waste management and site remediation, air pollution control, and environmental regulatory compliance. Course work includes field and laboratory sampling and analysis plus design of pollution control systems.

Graduates obtain careers with industries, environmental consultants and remediation contractors, municipalities, testing laboratories, state or federal government agencies, and chemical manufacturing corporations.

**Electromechanical Engineering Technology**
A baccalaureate degree in electromechanical engineering technology provides students with backgrounds in mechanical and electrical systems, fluid power, controls, and industrial networks. Electromechanical graduates work in manufacturing and process plant engineering, operation, maintenance, new product design, systems design, system analysis, and systems integration.

The electromechanical engineering technologist is a blend of mechanical and electrical engineering technology, computer science, information technology, and control systems. Graduates have broad application backgrounds in automation, electronics, data acquisition, controls, programming, and mechanical and electrical science principles. This allows students to understand the design and operation of systems found in the plant environment.

**ASSOCIATE:**
**Civil Engineering Technology**

*Associate of Science Degree*
CIP 15.0201

**University Studies Requirements** ......................................................... 23 hrs
(See Academic Degrees and Programs.)

University Studies selections must include:

Industrial Technology and Design

The Industrial Technology tracks are: Engineering and Graphics Design, Interior Design, and Manufacturing Technology.

• Engineering Graphics and Design
  A baccalaureate degree in engineering graphics and design provides students with the fundamentals of design principles, computer aided design, and commercial/industrial design standards. Graduates will be prepared to work with engineers and architects in designing, constructing and manufacturing in modern industrial and architectural corporations.

  This broad based program emphasizes computer aided design, and design graphics including: mechanical engineering drawings, renderings, technical animations and 3D parametric design. Applied engineering and engineering design/CAD are typical job descriptors for engineering graphics and design graduates.

  Engineering graphics and design graduates typically find jobs in manufacturing companies, engineering consulting firms, and architectural firms utilizing cutting edge computer graphic design capabilities and applied engineering concepts in the design of modern processes, components and structures.

• Interior Design
  A baccalaureate degree in interior design provides students with the fundamentals of design, design analysis, space planning, the design of all interior spaces, and an understanding of related aspects of environmental design. In addition, graduates will be able to conduct research and solve problems relative to the function and quality of interior design. Graduates will be prepared to work as a professional interior designer, and with architects and engineers in designing interiors for residential and commercial buildings.

  This program prepares graduates to enter positions in interior design and related areas in environmental design and to work in private business where interior design knowledge is critical. With a broad range of skills in technical drawing and CAD, architectural drawing, engineering graphics, and designing interiors graduates are prepared to work in a variety of architectural construction, and engineering consulting firms as interior designers.

• Manufacturing Technology
  A baccalaureate degree in manufacturing technology provides students with a broad range of knowledge and skills related to industry and industrial supervision. Graduates from this program are exposed to the applied aspects of industrial processes, production systems, production management, computer integrated design, computer aided drafting, manufacturing systems, human relations and human resource development. The graduates from this program will generally work in one of a variety of industries working directly with engineers, designers, and production personnel as supervisors and technical support, utilizing skills in computer numerical control, hydraulics, machine tool processes, CAD, CAM, computer integration, industrial automation and system integration. Additional skills in electrical systems, accounting, marketing, human resource management and business management allows graduates to work in a variety of industrial environments.

Environmental Technology Minor ........................................ 21 hrs
CET 284, 330, 331, 342, 353, 555, and ENT 286. Prerequisite courses are not applicable to this minor. Six hours must be upper-level courses completed in residence at Murray State University.

Industrial and Engineering Technology Minor .................... 21 hrs
Program must be approved by an advisor with at least six hours of courses at 300-level or above completed in residence at Murray State University.

Graduate Program

Graduate Coordinator - Michael Kemp

The Department of Industrial and Engineering Technology offers the Master of Science degree in Applied Engineering and Technology Management. This degree is designed for individuals who wish to further their knowledge of management, leadership, and technology. The program is appropriate for graduates with backgrounds in technology, engineering, science, and mathematics and other related fields who have significant business/industrial work experience.

The applied engineering and technology management degree places emphasis on the involvement with real situations and problems for an industrial setting. A broad range of selections are provided in the areas of resource management, supervision and training, quality control, environment and safety management, business and finance, research, communications, and information systems.

Requirements for Admission

Applicants must meet the Murray State University requirements (see Graduate Admissions). Additional requirements for unconditional and conditional admission are as follows. The Graduate Record Examination (GRE) is not required for admission to this program.
Unconditional

Admission to the Master of Science degree in Applied Engineering and Technology Management is open to persons holding a baccalaureate or higher degree from a regionally accredited college in engineering, engineering technology, science, or related fields. Persons holding degrees in other fields may also apply if the nature of the professional employment has provided significant technology-related experience. Courses included in the program of study may require prerequisite course work.

Unconditional admission requires a 2.75 grade point average (GPA based on an A equals 4.0).

Conditional

Students denied unconditional admission to Master of Science degree programs in the Department of Industrial and Engineering Technology, but who meet University requirements for conditional admission, may petition for conditional admission. Conditional admission is usually reserved for applicants whose previous education and/or experience is evaluated by the department chair to indicate a likelihood of success. Students applying for conditional admission must have a GPA of 2.25 to 2.74. A student accepted conditionally will be expected to complete nine hours of prescribed work with a minimum 3.0/4.0 GPA. These initial nine hours are assigned by the advisor and may be in addition to the student’s program of study. After completion of these nine hours the Departmental Graduate Committee will evaluate the student’s progress. The first nine hours may include undergraduate or graduate courses as directed by the department. Depending on the student’s undergraduate preparation, undergraduate courses may be required before enrolling in any graduate courses. Graduate courses may be allowed concurrently with these undergraduate courses in special situations.

Language Proficiency

Applicants whose native tongue is not English or who did not graduate from an English speaking college or university must demonstrate language proficiency. Applicants must adhere to the university’s guidelines for language proficiency.

Master of Science in Applied Engineering and Technology Management

CIP 15.0000

The Applied Engineering and Technology Management program is designed for individuals who are seeking positions of increased leadership and responsibility in business, industry, and government. Emphasis is placed on involvement with real situations and problems. The student, in consultation with an advisor, will develop an interdisciplinary plan of study to increase skills in a specific technical area and to strengthen abilities to communicate effectively in the management of technical functions.

Total Course Requirements ................................................. 30 hours

Electives ........................................................................ 12 hrs

Select four electives with advisor approval. (No more than two courses total may be taken with the following prefixes: ACC, BUS, CIS, FIN, MGT, or MKT.)

Other Degree Requirements

- A written comprehensive examination is required as a component of graduation requirements.
- Independent study, special problems, and workshop courses may only be taken in special circumstances and with prior advisor and instructor approval.

1A basic statistics course or equivalent is required prior to enrolling in IET 697.

Telecommunications Systems Management

Telecommunications systems are networks of leading-edge technologies such as fiber optic systems, satellites, wireless, telephony, and cable, which are connected to computers that allow organizations and individuals throughout business and industry to communicate instantaneously around the world. Telecommunications systems provide the architectural structure for such activities as electronic commerce, electronic banking, video teleconferencing, distance learning, telemedicine, data interchange, on-demand video, wireless technology, information security, and a host of other traditional and new uses for business and industry.

The baccalaureate program provides students specialization tracks within the curriculum. Students in the baccalaureate program will have the insight and ability to function in all areas of Telecommunications Systems Management (TSM) but will choose a program emphasis that will support the aspect of management which interests them most - the physical system and its components, the software that drives the system, or the business structure and operations that depend on the system. In addition, they will be prepared to move on to the Master of Science in Telecommunications Systems Management if they so choose.

Telecommunications Systems Management is an interdisciplinary program drawing upon the strengths of the Bauernfeind College of Business and the Jones College of Science, Engineering and Technology. These programs which are jointly administered by the two colleges provide students a unique opportunity to develop both technical expertise and management expertise in this dynamic field.
Due to the dynamic nature of the field of telecommunications, new courses may be developed that may require substitution for existing courses in the program.

**Telecommunications Systems Management**

Bachelor of Science
CIP 11.0401

University Studies Requirements ........................................ 44 hrs
(See Academic Degrees and Programs.)

University Studies selections must include:

- **Scientific Inquiry, Methodologies, and Quantitative Skills**
  - MAT 135 Introduction to Probability and Statistics
  - MAT 140 College Algebra
  - PHY 125 Brief Introductory Physics
  - PHY 126 Brief Introductory Physics Laboratory

- **Social and Self-Awareness and Responsible Citizenship**
  - ECO 231 Principles of Microeconomics

- **University Studies Electives**
  - CSC 101 Introduction to Problem Solving Using Computers
  - CSC 199 Introduction to Information Technology

Required Courses ............................................................... 59 hrs

- ACC 200 Principles of Financial Accounting
- CIS 307 Decision Support Technologies
- CIS 317 Principles of Information Systems Analysis and Design
- CSC 235 Programming in C++
- ECO 335 Economics and Public Policy of the Telecommunications Industry
- FIN 330 Principles of Finance
- MGT 350 Fundamentals of Management
- MKT 360 Principles of Marketing
- TSM 100T Transitions
- TSM 133 Telecommunications Technology and Methods
- TSM 232 Operating Systems
- TSM 233 Network Services
- TSM 241 Networking Fundamentals
- TSM 320 Introduction to Wireless Technology
- TSM 343 Protocol Analysis
- TSM 351 Principles of Information Security
- TSM 411 Network Design, Operations and Management
- TSM 443 Telephone Technology
- TSM 488 Cooperative Education/Internship

Selected Emphasis ............................................................. 21 hrs

Choose any of the methods of completion below:
1) Select specific classes;
2) Select one or more complete emphasis areas;
3) Select approved electives to total 24 hours.

Note: When selecting courses for an area of emphasis or as an elective, a maximum of nine hours may be selected from courses with a business prefix including: ACC, BUS, CIS, FIN, MGT, MKT, or OSY. Adherence to course prerequisites is critical.

**Wireless Communications Electronics**

- TSM 321 Wireless Communications
- TSM 322 Wireless Communications II
- TSM 323 Wireless Mobile Internet
- TSM 421 Mobile Satellite Communications

**Network Security**

- TSM 352 System Security
- TSM 353 Network Security
- TSM 440 Information Policy and Security Auditing
- TSM 441 Advanced Information Security
System Administration
CSC 310 Database Administration
CSC 360 Scripting Languages
TSM 450 Telecommunications Policy and Management
TSM 517 Systems Planning

Approved Electives
CSC 370 Introduction to Artificial Intelligence
ENG 324 Technical Writing
LSC 443 Fundamentals of Operations and Technology
MGT 358 Entrepreneurial Business Plan Development
MKT 475 Marketing Strategies in E-Commerce
TSM 444 Enterprise Networks

Total Curriculum Requirements ................................. 124 hrs
*Maximum of three hours Internship or Cooperative Education counts toward a degree.

Telecommunications Systems Minor ............................ 21 hrs
TSM 133, 232, 233, and 241. Nine hours of advisor approved electives. Six hours must be 300- or 400-level courses completed in residence at Murray State University.

Graduate Program

Graduate Coordinator - George Rice
270-809-6216

The master’s program in telecommunications systems management provides students a core of fundamental courses and the concentration of choosing a specialization within the curriculum. Although students in the master’s program will have the insight and ability to manage all aspects of telecommunications systems, the program concentration choice will support the aspect of management which interests them most, the physical systems and its components or the business structure and operations that depend on the system.

Requirements for Admission
Applicants must meet the Murray State University requirements (see Graduate Admissions).

Unconditional
For a TSM applicant to be unconditionally admitted to the program, an applicant must satisfy one of two formulas:
GMAT Users: \((200 \times \text{UGPA}) + \text{GMAT} \geq 1,000\)
GRE Users: \(\text{GRE} \geq 321 - (11.66 \times \text{GPA} - \text{Combined quantitative and verbal sections only.})\)

Note: The GRE formula uses the combined score from the quantitative and verbal sections only. Ask the Educational Testing Service (ETS) to send scores directly to Murray State University using our institution code: 1494.

In addition, candidates must take the TOEFL and score at least 550 on the paper-based exam (or 213 on the computerized version) if English is not their native language or they have not graduated from an accredited English speaking university.

Conditional
Applicants to the TSM graduate program may be admitted conditionally if their overall GPA is 2.75 or higher, or at least 3.0 for their last 60 hours of undergraduate study. Full admission to the program will be granted in one of only two ways, namely:

1) The applicant takes TSM 601, TSM 610 and one other core course (ACC 604, MGT 651, TSM 602, TSM 603, or TSM 630) as their first nine hours of the program and earns a GPA not less than 3.33 from the three core courses; or
2) the applicant takes the GMAT or GRE and meets the unconditional admission formula within their first semester in the program.

If neither of these two conditions is met, the student will be dropped from the program even if they have already taken graduate coursework.

International Admission
Applicants, from any country where English is a second language, will be required to demonstrate English language proficiency. This can be done by taking the Test of English as a Foreign Language (TOEFL) exam and score at least:
1) 550 pBT (paper-based test)
2) Minimum of 20 in each band iBT (internet-based test)
3) International English Language Testing System (IELTS) exam and score 6.0 on the academic test (with no band <5.5) to be fully admitted into the program.
Master of Science in Telecommunications Systems Management

CIP 11.0401

NON-THESIS REQUIREMENTS ONLY

Total Course Requirements ............................................ 30 hours
ACC 604 Quantitative Financial Controls
MGT 651 Seminar in Organizational Behavior
TSM 601 Telecommunications Principles
TSM 602 Telecommunications Systems
TSM 603 Telecommunications Project Management
TSM 610 Telecommunication Networks Management
TSM 630 Telecommunications Legal Environment: Law, Policy and Regulations
TSM 680 Telecommunications Solution Development
Electives (6 hrs)

Only one elective can be an ACC, BUS, CIS, FIN, MGT, or MKT prefix. Prefixes with no restrictions include: ECO, IET, and TSM. Other prefixes may be used with director’s approval. Check course descriptions for prerequisites. Not all 600-level courses are offered online.

CERTIFICATE:
Professional Telecommunications Systems Management

CIP 11.0103

The Certificate in Professional Telecommunications Systems Management is designed to complement traditional, disciplinary graduate and professional degree programs. The certificate program will provide professionals (e.g., medical administrators, corporate managers) with an overview of current terminology, practices and concepts related to the area of information technology and telecommunications systems. This certificate is an online delivery program.

Requirements for Admission

Students who hold an undergraduate degree, graduate degree, or are currently enrolled in a graduate or professional degree program may apply for the Certificate in Professional Telecommunications Systems Management program.

Applicants must comply with the Murray State University requirements (see Graduate Admissions). Additional requirements for admission are as follows:

Unconditional

For a TSM applicant to be unconditionally admitted to the program, an applicant must satisfy on of two formulas:

GMAT Users:  
\[(200 \times UGPA) + GMAT \geq 1,000\]

GRE Users:  
\[GRE > 321 - (11.66 \times GPA) - (Combined \text{ quantitative and verbal sections only.})\]

Note: The GRE formula uses the combined score from the quantitative and verbal sections only. Ask the Educational Testing Service (ETS) to send scores directly to Murray State University using the institution code: 1494.

Conditional

- an undergraduate GPA of 2.75 or higher, or at least 3.0 for their last 60 hours of undergraduate study.

Full admission to the program will be granted in one of only two ways, namely: 1) The applicant takes TSM 601, 610 and one other certificate course (TSM 602, 603, or 615) as their first nine hours of the program and earns a GPA not less than 3.33 from the three core courses; or 2) the applicant takes the GMAT or GRE and meets the unconditional admission formula within their first semester in the program.

International Admission

Applicants from any country where English is a second language will be required to demonstrate English language proficiency. This can be done by taking the Test of English as a Foreign Language (TOEFL) exam and score at least: 1) 550 pBT (paper-based test), 2) minimum of 20 in each band iBT (internet-based test), or 3) take the International English Language Testing System (IELTS) exam and score 6.0 on the academic test (with no band <5.5) to be fully admitted into the certificate program.

Total Course Requirements ............................................ 18 hours
TSM 601 Telecommunications Principles
TSM 602 Telecommunications Systems
TSM 603 Telecommunications Project Management
TSM 610 Telecommunications Networks Management
TSM 615 Information System Security
Elective (3 hrs)

Students may transfer up to six credit hours of equivalent graduate courses into the program.
Department of Mathematics and Statistics
6C9 Faculty Hall
270-809-2311

The mission of the Department of Mathematics and Statistics is to engage the larger mathematical community through scholarship and research, to provide our service region with mathematical and statistical support for its educational and industrial objectives, and to equip our students with mathematical skills which they may apply in further degree programs and careers requiring expertise in mathematics. In particular, through our instruction and guidance we endeavor to provide our students with an understanding of mathematical ideas, and the ability to reason mathematically, analyze real world problems with mathematical techniques, and continue to read, learn, and communicate mathematics.

The department offers a major in mathematics, an area in mathematics with secondary certification, a major in mathematics with secondary certification, an area in applied mathematics, and an area in mathematics with a pre-MBA track. In these programs the student will learn mathematics as a fundamental discipline and as an essential tool in most other disciplines. Mathematics is also quite useful as a minor or second major. Additionally, the common awareness that mathematics is a substantial subject will enhance the prospects of any student who demonstrates a facility with the material.

Graduates with a major have gone on to careers in teaching, science, and industry. Some have improved their entry level prospects via graduate study at Murray State and/or in nationally known Ph.D. programs.

The area in applied mathematics will prepare the student for a career in business, industry, government or academics. The area consists of a core of applied mathematics courses and a 18-hour track in a related field. Each track contains further mathematical training, computer programming experience, and a broad study of a discipline which illustrates applications of mathematics. The program is intentionally flexible and, by its interdisciplinary nature, will provide the student with an understanding and experience in modeling and solving relative problems.

Mathematics

Bachelor of Science/Bachelor of Arts Degree
CIP 27.0101

University Studies Requirements .................. 38-44 hrs
(See Academic Degrees and Programs.)

Required Courses .................................................. 25 hrs
MAT 100T Transitions
MAT 250 Calculus and Analytic Geometry I
MAT 308 Calculus and Analytic Geometry II
MAT 309 Calculus and Analytic Geometry III
MAT 312 Mathematical Reasoning
MAT 335 Matrix Theory and Linear Algebra
MAT 540 Mathematical Statistics

Required Limited Electives .................................. 15 hrs
Five MAT courses (3 or 4 credit hour) selected from MAT 338 and MAT courses numbered 400 or above including:
at least one of the following:
MAT 513 Modern Algebra I
MAT 516 Introduction to Topology
MAT 525 Advanced Calculus I
and least one of the following:
MAT 442 Introduction to Numerical Analysis
MAT 506 Mathematical Modeling I
MAT 524 Boundary Value Problems
MAT 541 Mathematical Statistics II

Co-Requirements.................................................. 3-4 hrs
One course in computer programming selected from: CSC 145, 232, 235, or EGR 140.

Required Minor .................................................. 21 hrs

Electives ............................................................ 11-18 hrs
Total Curriculum Requirements ........................................ 120 hrs
1May be taken as a University Studies elective.
2This is a University Studies writing intensive course.
3This is a University Studies technology intensive course.

AREA:
Mathematics/Secondary Certification (Grades 8-12) Track

Bachelor of Science/Bachelor of Arts Degree
CIP 27.0101

University Studies Requirements ..................................... 42-43 hrs
(See Academic Degrees and Programs.)

University Studies selections must include:
• Scientific Inquiry, Methodologies, and Quantitative Skills
  MAT 250 Calculus and Analytic Geometry I
  MAT 308 Calculus and Analytic Geometry II
• Social and Self-Awareness and Responsible Citizenship
  PSY 180 General Psychology
• University Studies Electives
  EDP 260 Psychology of Human Development
  EDU 103 Issues and Practices of American Education

Note: Certification requires a grade of B or better in one English composition course and a B or better in a University Studies math course, public speaking, and EDU 103 or equivalent course. Additional requirements for admission to teacher education and student teaching must be met. See advisor and/or Office of Teacher Education Services for details.

Required Courses ............................................................. 24 hrs
MAT 100T Transitions
MAT 309 Calculus and Analytic Geometry III
MAT 312 Mathematical Reasoning
MAT 335 Matrix Theory and Linear Algebra
MAT 517 Foundations of Geometry
MAT 540 Mathematical Statistics I
MAT 550 Teaching Mathematics
MAT 551 Mathematics for Teachers

Required Limited Electives ............................................. 18-20 hrs
Three MAT courses (3 or 4 credit hour) selected from MAT 338 and MAT courses numbered 400 or above including:
  at least one of the following:
  MAT 513 Modern Algebra I
  MAT 516 Introduction to Topology
  MAT 525 Advanced Calculus I
  and at least one of the following:
  MAT 442 Introduction to Numerical Analysis
  MAT 506 Mathematical Modeling I
  MAT 524 Boundary Value Problems
  MAT 541 Mathematical Statistics II
An additional course (at least 3 credit hours) selected from MAT 338 and MAT courses numbered 400 or above.

At least three (3 or 4 credit hour) courses selected from courses numbered 400 or above or from courses related to the application of mathematics selected from a list approved by the Department of Mathematics and Statistics.

Co-Requirement .............................................................. 3 hrs
One course in computer programming selected from: CSC 145, 232, 235, or EGR 140.

- MAT 540 Mathematical Statistics I
- MAT 565 Applied Statistics I
- MGT 350 Fundamentals of Management
- MGT 443 Management of Operations and Technology
- MKT 360 Principles of Marketing

Required Limited Electives ............................................. 12-13 hrs
Four (3 or 4 credit hour) courses selected from MAT 338 and MAT courses numbered 400 or above.

Co-Requirements ............................................................ 3-4 hrs
One course in computer programming selected from: CSC 145, 232, 235, or EGR 140.

Unrestricted Electives .................................................... 11-23 hrs

Total Curriculum Requirements ....................................... 120 hrs

1 This is a University Studies technology intensive course.
2 This is a University Studies writing intensive course.
3 Will be a University Studies technology intensive course.

Mathematics Minor ...................................................... 23 hrs
MAT 250, 308, 309 and nine hours of selected mathematics courses numbered above 309 (except for 330, 399, 554). Departmental approval required. Six hours must be upper-level courses completed in residence at Murray State University.

Graduate Program

Graduate Coordinator - Kelly Pearson

The Master of Science and Master of Arts degrees are designed to provide students with the opportunity to study graduate level mathematics so that they may (1) obtain preferred employment in mathematics with government or industry, (2) teach at the junior college level or be better prepared to teach at the secondary school level, or (3) continue working toward a doctor of philosophy degree.

The Master of Arts program is a broadly based program which includes a study of algebra, analysis, topology, and the foundations of mathematics. The Master of Science program consists of a core of applied mathematics together with a core (at most nine hours) in an allied field such as business, computer science, or physics. The program is flexible and is particularly suited to meet the needs of students preparing for careers in business, industry, or government.
The department also offers the Master of Arts in teaching degree in mathematics. This program is designed for certified teachers who wish to strengthen their discipline-based background and keep up with current information in educational theory, curriculum, and research. All graduate programs in mathematics are planned in close consultation with the department graduate committee and are subject to its approval.

Requirements for Admission

Applicants must meet the Murray State University requirements (see Graduate Admissions). Additional requirements for unconditional and conditional admission to M.S. or M.A. programs are as follows:

Unconditional

- Bachelor’s degree from a regionally accredited college with a major (or equivalent) in mathematics or a related field;
- Overall GPA of 3.0 or above in all mathematics courses beginning with the last elementary calculus course;
- Minimal GPA of 3.0 in all mathematics courses beginning with the first calculus course;
- Minimal GPA of 3.0 in all major courses; and
- If the major is in a related field (not mathematics), the student must have credit for three calculus courses (including a multivariable calculus course), a proof-based course, a matrix/linear algebra course, and a differential equations course.

Conditional

Recommendation of the department graduate committee or

- Bachelor’s degree from a regionally accredited college with a major in a related field and at least a 3.0 GPA in their major courses;
- Credit for three calculus courses (including a multivariable calculus course), a proof-based course, and a matrix/linear algebra course with a 3.0 GPA in all mathematics courses beginning with the last elementary calculus course;
- GPA 3.0 or above in all mathematics courses beginning with the last elementary calculus course; and
- Two letters of recommendation from college teachers addressing the candidate’s ability to do mathematics graduate work.

Master of Arts in Mathematics

CIP 27.0101

THESIS REQUIREMENTS

Total Course Requirements ....................................... 30 hours
MAT courses, 700-level (3 hrs)
MAT courses, 600- or 700-level (21 hrs)
MAT 798-799 Research and Thesis (6 hrs)

Other Degree Requirements

- An advanced course in real analysis (MAT 725L-R).
- Oral defense and examination of thesis.

NON-THESIS REQUIREMENTS

Total Degree Requirements ....................................... 30 hours
MAT courses, 700-level (9 hrs)
MAT courses, 600- or 700-level (21 hrs)

Other Degree Requirements

- An advanced course in real analysis (MAT 725L-R).
- Comprehensive examinations over coursework.

All coursework must be approved by the department graduate committee. The student must complete two, two-course sequences. If the student has not completed two semesters of advanced calculus then one of the sequences must be MAT 625-626. At most, one of these sequences may be a completion of a sequence that was started as an undergraduate.
Master of Science in Mathematics

CIP 27.0101

THESIS REQUIREMENTS

Total Course Requirements ............................................ 33 hours
MAT courses, 700-level (3 hrs)
MAT courses, 600 or 700-level (15-24 hrs)
Allied field, 600 or 700-level (0-9 hrs)
MAT 798-799 Research and Thesis (6 hrs)

Other Degree Requirements
• An advanced course in real analysis (MAT 725L-R).
• Oral defense and examination of thesis.

NON-THESIS REQUIREMENTS

Total Course Requirements ............................................ 33 hours
MAT courses, 700-level (9 hrs)
MAT courses, 600 or 700-level (15-24 hrs)
Allied field, 600 or 700-level (0-9 hrs)

Other Degree Requirements
• An advanced course in real analysis (MAT 725L-R).
• Comprehensive examinations over coursework.

1All coursework must be approved by the departmental graduate committee. The student must complete two, two-course sequences. If the student has not completed two semesters of advanced calculus then one of the sequences must be MAT 625-626. At most, one of these sequences may be a completion of a sequence that was started as an undergraduate.

Master of Arts in Teaching in Mathematics Teacher Leader (M.A.T.)

CIP 27.0101

The M.A.T. program is designed for certified teachers who wish to strengthen their background in mathematics and keep up with current information in educational theory, curriculum and research. The program provides for both reasonable depth in the mathematics area and graduate-level exposure in supporting disciplines. Completion of this program fulfills the requirements for Rank II classification. A student portfolio is required.

Requirements for Admission

Applicants must meet the Murray State University requirements (see Graduate Admissions). Additional requirements for unconditional and conditional admission to the M.A.T. program are as follows.

Unconditional
• Completion of requirements for teaching certification.
• Documentation of secondary teacher certification in the United States or comparable teacher qualification document from another country.
• Documentation of current certification for the duration of the program.
• Minor in mathematics with 3.0 minimum mathematics GPA.

Conditional
• See MSU requirements (see Graduate Admissions) and conditional admission requirements for certification (see College of Education).
• Completion of requirements for teaching certification.
• Documentation of primary, middle, or secondary teacher certification in the United States or comparable teacher qualification document from another country.
• Documentation of current certification for the duration of the program.
• At least two calculus courses and two approved upper-level mathematics courses; and
• Two letters of recommendation from college teachers addressing the ability of the student to complete an M.A.T. degree in mathematics.
NON-THESIS REQUIREMENTS ONLY

Total Course Requirements ............................................. 33 hours
MAT courses, 700-level (3 hrs)
MAT courses, 600-level (15 hrs)

Education Courses
EDU 600 Introduction to Teacher Leadership
EDU 631 Classroom and Management and Student Motivation
EDU 633 Curriculum Development
EDU 637 Instruction for Diverse Learners
EDU 639 Research to Improve Student Learning
EDU 640 Exit Seminar in Teacher Leadership

Other Degree Requirements
Students must complete EDU 600 before enrolling in EDU 639.

Master of Arts in Education Secondary Teacher Leader with Mathematics Concentration

CIP 13.1205

The Department of Mathematics and Statistics provides instruction in support of the M.A.Ed. in Secondary Teacher Leader with a concentration in mathematics. Prospective students should contact the graduate coordinator in the College of Education for details on advising and graduate program design.

Department of Occupational Safety and Health

157 Collins Center
270-809-2488

The Department of Occupational Safety and Health provides related curriculum offerings at the baccalaureate and master’s levels. Service courses are offered for individuals majoring in other fields such as business, science, health, psychology, education, and engineering technology. The department also offers a technical minor and a Master of Science degree, including an online Master of Science program with an emphasis in safety management that is equivalent to the on-campus program. The degree programs are designed to provide the technical and professional knowledge required by individuals pursuing professional careers in accident prevention, loss-control management and supervision, inspection and control of occupational hazards, industrial hygiene or environmental health and safety.

Occupational Safety and Health Track

This track is designed to provide the technical and professional knowledge required by individuals pursuing professional careers in accident prevention, loss control management and supervision, inspection and control of occupational hazards, and industrial hygiene.

Environmental Health and Safety Track

This track is designed to provide the technical and professional knowledge required by individuals pursuing professional careers in environmental issues and affairs such as water quality, air quality, and solid and hazardous waste management.

Requirements for Admission

Students may declare OSH as their area of choice at any point after meeting the requirements as listed below. However students must be formally admitted into the OSH program before they can enroll in restricted classes which are OSH 299, 353, 371, 387, or 400- and 500-level OSH classes. In order to be admitted to the OSH program, a student must (1) have completed at least 30 credit hours of coursework from the OSH University Studies requirements and non-restricted OSH classes at the 100-, 200- and 300-levels with a minimum GPA of 2.25; (2) have no grade less than a C in an OSH class; (3) complete an application packet for admission to the program which includes an application form and MyGate transcript; (4) be successfully reviewed by the OSH program admissions committee; (5) apply by February 1 for fall admission or by September 1 for spring admission; (6) follow the most current bulletin when admitted to the program.

Degree Requirements

All occupational safety and health majors and minors must earn a grade of C or better in all OSH courses. Any OSH course with a grade below a C must be repeated. The maximum number of times a student may enroll in an OSH class is twice; this includes audits and withdrawals after the first week of class. Exceptions would be made only if the student was forced to drop the class due to a life-changing event and not due to performance in the class. If a grade less than C is received in any OSH course for a second time, the course cannot be repeated and the student is dismissed from the program and is not eligible for readmission. A cumulative grade point average of at least 2.50 must be maintained to graduate.

### Total Curriculum Requirements ........................................ 123 hrs

1. CSC 199 can be substituted by another computer related course with advisor’s approval.
2. May be repeated for additional credit.
3. May be repeated for a second experience.

### Occupational Safety and Health Minor .............................. 21 hrs

OSH 101, 192, 387, 420, and six hours from OSH 320, 353, 384, 452. Six hours must be upper-level courses completed in residence at Murray State University.
Graduate Program

The graduate program in occupational safety and health is unique in this region. In light of an increased sensitivity to the safety of the work environment and to the overall health of all Americans, the program is a timely response to business and industry needs. Few programs of this type are found in higher education.

Requirements for Admission

Applicants must meet the Murray State University requirements (see Graduate Admissions). Additional requirements for unconditional and conditional admission are as follows.

Unconditional

Unconditional Admission status is granted only to students who graduate from Murray State University with a baccalaureate degree in occupational safety and health with an overall GPA of 3.00 or higher.

All other students regardless of GPA, field of study, and GRE results are admitted to the program with Conditional Admission status. To move into Unconditional status, the student must meet the university requirement of obtaining a 3.00 in the first nine hours of graduate work and additional criteria set forth by the Department of Occupational Safety and Health.

Conditional

The following status will be based on undergraduate GPA, regardless of undergraduate baccalaureate degree field or major.

- 2.99 - 2.50: Conditional
- 2.49 - 2.25: Conditional after a thorough transcript evaluation
- 2.24 - 2.00: Conditional after evaluation and probationary admission (The student must be enrolled as full-time and maintain a GPA of 3.30 for the first nine graduate credit hours.)

Students admitted from a different undergraduate field/discipline must complete the following course work in addition to the above GPA requirements. Undergraduate coursework is required in biology, chemistry, mathematics, and physics. The following courses are the minimum accepted requirements for pursuing a master’s degree in occupational safety and health.

- BIO 101
- CHE 105
- MAT 130 or MAT 140 and 145 or 150
- MAT 135 or PSY 300
- PHY 125 and 126

Students must also complete 15 prerequisite credit hours in occupational safety and health and pass these courses with a grade of C or higher.

Prerequisite Undergraduate Requirements ................. 15 hours

OSH 192 Introduction to Occupational Safety and Health
OSH 320 Environmental and Occupational Health Engineering Technology
OSH 353 Prevention of Musculoskeletal Disorders in the Workplace
OSH 453 Human Factors in Safety Engineering
OSH 387 OSHA Standards for General Industry and Construction

and

one of the following concentration-specific courses:

Environmental
OSH 311 Hazardous Materials and Emergency Planning

Safety Management
OSH 384 Construction Safety

Industrial Hygiene
OSH 425 Physical Agents

Master of Science in Occupational Safety and Health

CIP 15.0701

ACCREDITED BY:

Within departmental guidelines, the individual student’s program is developed in consultation with advisor.

THESIS REQUIREMENTS

Total Course Requirements........................................... 30 hours

Technical Requirements.......................................... 12 hrs
Choose four from the following:
OSH 621 Industrial Hygiene and Safety Program Development
OSH 623 Occupational Diseases
OSH 626  Industrial Hygiene Sampling Strategies
OSH 630  Global Issues in OSH
OSH 636  Transportation Management
OSH 637  Biostatistics and Probability
OSH 640  Safety and Health Program Management and Training
OSH 645  Loss Control Measurement and Management
OSH 646  Fundamentals of Risk Control
OSH 654  Advanced Safety and Health Management and Administration
OSH 655  Legal Aspects of Safety and Health
OSH 656  Ergonomics and Biomechanics
OSH 658  Introduction to Occupational Epidemiology
OSH 670  Internship in Safety and Health\textsuperscript{RT} (or approved elective with prior safety internship or equivalent)
OSH 644  Cooperative Education\textsuperscript{RT}
OSH 680  Graduate Seminar in Occupational Safety and Health

Thesis  ..............................................................................\ 6 hrs
OSH 698-699 Thesis

\textsuperscript{1}Technical requirements courses are selected based on the student’s program concentration and must be approved by the graduate program advisor.

\section*{NON-THESIS REQUIREMENTS}

\textbf{Total Course Requirements} .............................................. 30 hours

Same as above with the following substitution for thesis:

OSH 670  Internship in Safety and Health\textsuperscript{RT} (or approved elective with prior safety internship or equivalent)
OSH 680  Graduate Seminar in Occupational Safety and Health

All students (Thesis or Non-Thesis) must also complete 12 credit hours by selecting one of the following three concentrations. Substitutions within these concentrations can be made only with the approval of the advisor. Consult with advisor when choosing a concentration. Additional coursework may be required.

\subsection*{Safety Management Concentration} ............................... 12 hrs
OSH 621  Industrial Hygiene and Safety Program Development
OSH 650  Occupational Safety and Health Organizational Leadership and Management
OSH 655  Legal Aspects of Safety and Health
OSH 657  Current Literature and Research in Safety and Health\textsuperscript{1}

\subsection*{Industrial Hygiene Concentration} ................................. 12 hrs
OSH 621  Industrial Hygiene and Safety Program Development
OSH 622  Toxicology of Industrial Materials
OSH 627  Air Contaminants and Industrial Ventilation
OSH 663  Applied Workplace Ergonomics

\subsection*{Environmental Concentration} ................................. 12 hrs
OSH 627  Air Contaminants and Industrial Ventilation
OSH 687  Wastewater Treatment
OSH 689  Solid and Hazardous Waste Treatment
OSH 697  Research in Environmental Health and Safety\textsuperscript{X}

\textsuperscript{X}An approved higher-level course in environmental science

\subsection*{Other Degree Requirements}
- Comprehensive examination (Non-thesis track).
- Students with no adequate undergraduate statistics preparation must take OSH 637.
