## OSP Spotlight

### **Dr. Brian Parr**

#### **Kentucky Department of Agriculture**

Dr. Brian Parr was recently awarded a grant in the amount of \$28,627 from the Kentucky Department of Agriculture to enhance the competitiveness and profitability of the hops industry in Kentucky. This project is a joint venture between the Hutson School of Agriculture at Murray State University and Pottertown Hops in Calloway County Kentucky. The operation is looking to expand its hops production to include drying, grinding, pelletizing, and packaging. This expansion will allow the operation to triple in size and scope.

The project will include the planting of 10 different varieties of hops to determine the most beneficial varieties and cultivation methods. Growth tests will be evaluated and shared with others in the region through Murray State sponsored field days and other educational events. Further, the project will serve as a model for economic development through market research and business plan development. The Hutson School of Agriculture's participation in this project reflects MSU's mission to "promote economic development and the well-being of the citizens of the Commonwealth of Kentucky" by placing a premium on collaborative relationships with business, industry, philanthropic organizations, and governmental agencies.
