MURRAY STATE
UNIVERSITY

Fall 2021 - Volume 41

A Word from the OSP Staff

While it is only October, we would like to remind you that with the upcoming Holidays, OSP will be closed with the rest of the University. Contact us as soon as you consider submitting a proposal to ensure staff availability to assist in all facets of the proposal process.

- John and Kristi

OSP Spotlight

Bassil El Masri

United States Department of Energy

Dr. Bassil El Masri of the Jessie D. Jones College of Science, Engineering and Technology was recently awarded a grant from the U.S. Department of Energy (DOE). The grant in the amount of \$299,866 will be used to fund the study entitled, "Methane dynamics described through vegetation-soil interactions in bald cypress and other bottomland hardwood forests."

The main scientific goal of the DOE-funded proposal is to investigate the spatial and temporal carbon dynamics of a temperate bald cypress, mineral soil wetland, and an adjacent bottomland hardwood stand using a suite of measurements including new soil and tree (i.e., stem and "knee") methane (CH₄) flux observations. This proposal is based on the premise that understanding methane fluxes in a temperate, forested wetland will advance mechanistic and model-ready science across a wide range of terrestrial-aquatic interface processes.

The design and activities will help to stimulate the adaptation of wetland ecosystems to a changing climate through better representations of the soil-vegetation interactions. By improving the understanding and modeling of CH₄ processes at bald cypress swamps, this work aims to make a significant contribution to two key sciences questions in DOE objectives — the first being new or improved understanding of environmental controls and ecological processes in a hydrologically oscillating zone on CH₄ fluxes and second, the collection of new CH₄ measurements.

Funding Opportunities

Those deadlines marked by an asterisk (**) are tentative. In some cases, these are specific dates that may change depending on the timing of the deadline notices and in others, we have listed just the month during which a deadline is expected. Deadlines marked by a double plus sign (++) are target dates. For a program summary please contact John Roark, jroark3@murraystate.edu.

SUBJECT MAILING LISTS

The Office of Sponsored Programs receives notices of funding opportunities daily. We send these opportunities to those faculty and staff who sign up for the mailing lists below. To subscribe to a list please email msu.sponsoredprograms@murraystate.edu. In the email subject line please type the area of your choice from the list above. You are welcome to subscribe to more than one list.

- Arts/Humanities/Social Sciences
- Education
- Health/Mental Health
- Science/Technology/Engineering/Mathematics
- Economic/Community Development
- Agriculture
- Nursing
- International

FUNDING OPPORTUNITY DATABASE

Grant Resource Center provides a funding opportunity database that includes private and federal announcements. A link to the Grant Search database is located in the Funding Opportunities section on the OSP website. To obtain the username and password required to access the database email msu.sponsoredprograms@murraystate.edu.

If you:

- need assistance in developing an idea
- need assistance in determining a funder
- would like to submit a proposal
- would appreciate a review of your proposal
- need assistance in preparing a budget
- have questions about external funding
