

Instructions for Programming TVs for Fiber Connect Plus (FC+)

1. Make sure TV is powered-on and Coaxial cable is screwed into the back of the TV.
2. Go to menu on TV (With remote control or buttons on the TV)
3. Location Option for Channel Scan
4. Run a Channel-Scan for “Cable TV” (note that each TV model will be different)
5. After Channel-Scan, TV stations / channels should come-in * **

* Please note:

With FC+ service, the TVs must be equipped with a Digital Tuner in order to pick-up channels. Digital Tuners are found in any TV manufactured after March 2007. (Analog TVs will pick up no channels)

** Also note:

Various brands of TV tuners may have different Channel Line-ups depending upon how the respective manufacturers channel selections were programmed to receive.

Therefore, the TV Channels may vary in order depending upon how they are picked-up by the TV Tuner, E.g., Channel 2 on brand X, may be shown as channel 2.2 on brand Y.
