Resolution 79-15-R1: Resolution Not to Support the Three Proposed Alternatives to Sixteenth Street.

PURPOSE: For the Student Senate of the Student Government Association of Murray State University not to support the three alternatives to Sixteenth Street, as proposed by the City of Murray, and to encourage the continued search for a sustainable solution for Sixteenth Street.

WHEREAS: Sixteenth Street continues to see a large amount of foot and vehicular traffic daily; and each year we have members of the Murray State University community injured in pedestrian versus vehicle accidents, and

WHEREAS: The proposed plans will continue to divide and limit the growth of our campus; it is paramount that we consider plans that will align with the best interest for future growth and current demand, and

WHEREAS: The proposals must demonstrate good stewardship of state monies; and must also take into account the preservation of the limited University parking

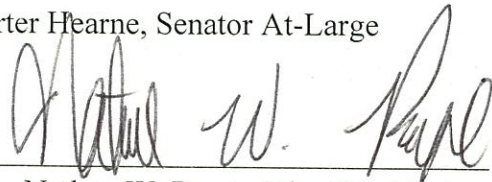

THEREFORE: Be it resolved that the Student Senate of the Student Government Association of Murray State University does not support the current alternates for Sixteenth Street. Instead, we do support a sustainable alternative that will promote the safety of our community, consider the future growth of campus, is a good steward of state monies, and provides for the preservation of our University parking.
