

RIGHTS AND RESPONSIBILITIES OF VEHICLE OWNERS

- **The person to whom the V-permit is issued will be responsible for all violations received regardless of current status at the university or lack of knowledge of current parking regulations.**
- **Pull-through parking and backing into a parking space is prohibited. Vehicles must be parked with rear license plate visible from the main lane of travel at all times.**

(Exception to this regulation: Emergency response vehicles or vehicles only required by their state of license to have a front license plate ----front plate only vehicles **MUST BE verified by Parking Services Office and approved by Parking Manager and/or their designee)**

- License plates (rear plate) must be easily visible to the parking lot aisle/roadways. License plates displayed behind objects (bicycle racks, bumper guards) or on a vehicle dashboard **are not acceptable**. A vehicle may receive a \$15 Improper Parking citation if vehicle fails to meet the requirements above.
- The purchase of a V-Permit **does not guarantee** the holder a parking place, but only an opportunity to park on university property. If a parking zone is full, ample parking is available in the parking lot at 17th and Hamilton; at Roy Stewart Stadium; and the Sorority suites lot at Poplar and Brentwood.
- At the time of V-permit request students, faculty, and staff will be required to list all vehicles in which they may park on MSU campus. Vehicles may be on multiple accounts, if multiple individuals use the vehicle to park on MSU's campus. However, all individuals parking a vehicle on campus must have a valid V-permit.

- Non-compliance in purchasing a V-permit and registering vehicles parking on campus as a student, faculty, staff, vendor/contractor, agency or visitor could result in any or all of the following:
 - First violation will result in your account being charged a fine of \$100 for "Non-registration of vehicle"
 - Additional violations for failure to register vehicle will be charged \$100 per violation.
 - May result in your vehicle being booted/towed and/or loss of parking privileges on campus.
- The Murray State Parking Services Office must be informed of new vehicle information when a registered vehicle is replaced or its license plate changes. All account holders have the ability to add/remove vehicles from their own account. If assistance is needed, please contact Parking Services at 270-809-4812. Failure to notify Parking Services or make appropriate changes may result in fines for parking violations, booted/towed vehicle, and/or loss of parking privileges on campus.
