

Is this project considered Research Involving Human Subjects by MSU or 45 CFR 46?

Is your activity designed to: (a) contribute to an established body of knowledge, (b) be applicable to a population larger than or outside of the original subject population, or (c) intended to be replicated in other settings?

NO

Activity may still be research. Submit IRB Oversight Determination Form.

YES

Does the research involve gathering data (including facts or opinions) about or from people from any source, including existing information?

NO

Research may still involve human subjects. Submit IRB Oversight Determination Form.

YES

Does the research involve (a) communication or interpersonal contact or (b) physical procedures or manipulations of a subject's environment?

NO

Can the identity of the subjects be readily ascertained by you or anyone else, including indirectly?

NO

YES

Activity is Human Subjects Research. Submit IRB Application for review.

YES

Is the information given or observed in a context where an individual can reasonably expect it will not be made public (including classrooms)?

YES

NO

Research may still involve human subjects. Submit IRB Oversight Determination Form.
