

EMOTIONAL SUPPORT ANIMAL RESOURCE GUIDE

Emotional Support Animals are typical household pets that provide therapeutic benefit to an individual with a mental or emotional disability. A domesticated animal that is traditionally kept in the home for pleasure rather than for commercial purposes, such as a dog, cat, small bird, rabbit, hamster, gerbil, other rodent, fish, or turtle would be considered appropriate types of animals to have as a reasonable accommodation. Reptiles (other than turtles), barnyard animals, monkeys, and other non-domesticated animals are not considered common household animals, and therefore are prohibited.

1 Vaccination Information
